On All News Stands: 15 CENTS

RAIN IN TORRENTS.

But the Heat Only Becomes Worse.

Sixty-three Deaths and Two Hundred and Fifty-four Prostrations in Gotham.

Great Suffering in Boston and Other New England Cities Reported.

No Permanent Relief Expected Soon—Conditions in Middle West.

NEW YORK, July 19.—[Exclusive Dispatch.] Up to 1:30 o'clock this morning eighty-three deaths have been reported for the past twenty-four hours as a result of the heat.

NEW YORK, July 19.—[Exclusive Dispatch.] Before a heavy thundershower descended upon Greater New York, about 3 o'clock this afternoon, fifty-three deaths and 264 prostrations had kept the hospital ambulances on the jump. Then the mercury took a tumble from 95 degrees down to 74 in five minutes. Rain descended in torrents, and thousands of men, women and children rushed out into the open for the welcome drenching, and to fill their lungs with cool, refreshing air.

But the relief was only temporary. Within fifteen minutes the thermometer was back to 80 degrees, and steadily climbed, with an increase in humidity which made the heat far harder to bear than before. At 4 o'clock the government thermometer registered 90, while up in Herald Square, the center of the city, the Herald thermometer registered 104, with the humidity up from 45 to 61.

At midnight the thermometer is at 84, slightly cooler than last night, but the percentage of humidity is greater. Forecaster Emory says thundershowers may be expected tonight, but thus far none has materialized, and tomorrow is awaited with intense anxiety. Only the thundershower prevented scores of deaths today.

Since 4 o'clock, ten deaths have been reported, making sixty-three for the day to midnight. The heat wave envelopes the entire eastern seaboard. Great suffering is reported from Boston and other New England cities, where the conditions are in every way similar to those in Greater New York. The same is true in New Jersey, in Paterson, Elizabeth and other manufacturing centers, business has been almost entirely suspended, owing to the terrible heat. In Paterson five deaths occurred today.

The American Ice Company came to an understanding with the striking employees at daylight this morning, and the public was spared an ice-famine calamity in addition to other sufferings.

The populace is sleeping out-of-doors again tonight. At Brighton, Manhattan, Coney and Sea Gate, which are practically one beach, thousands remained in bathing suits all day to escape the heat.

There is no permanent relief in sight. Forecaster Emory said, "Thundershowers are due tonight and tomorrow, but they will not be able to break the backbone of the heat. An area of high pressure over the Southern States keeps a hot jacket tightly buttoned about the city. In looking over the maps, I cannot find anything which would point to an early cessation of the present heat. Of course, the thundershowers will give temporary relief, but that is all."

The heat continues throughout an area east of the Rocky Mountains with little or no abatement. Along the lower lakes, in Iowa, Northern Illinois and Southern Wisconsin there were a few early morning thundershowers, but the temperature had not been materially lowered, except in Iowa and Southern Minnesota. The greatest intensity of heat centers in the Ohio Valley and the northern portion of the Middle Atlantic States.

THE MIDDLE WEST.
CHICAGO'S DEAD EIGHTEEN.
[BY DIRECT WIRE TO THE TIMES.]
CHICAGO, July 19.—[Exclusive Dispatch.] While the maximum temperature in Chicago today fell 10 degrees from that of the previous day and the percentage of humidity was correspondingly lower, the number of deaths credited to the heat was greater than on any of the three pre-

(Continued on Fourth Page.)

MILLIONS FOR INDIANS.

New York Trying to Devise Best Means of Giving Iroquois Big Sum Due Them.

ALBANY (N. Y.) July 19.—To devise the best means of distributing \$2,500,000 which the nation owes the survivors of the Iroquois Indian tribes in the State and to study other local and Indian problems, Speaker Nixson today appointed a special committee. The committee will visit the reservations during the summer and fall and report to the next Legislature.

The large sum due to New York Indians was derived from the sale of land in Kansas, which was given them in exchange for the old St. Regis reservation in this State. After the exchange was made, the Indians refused to go to Kansas and the land there was sold for their benefit. It is probable that after ascertaining the views of the chief men among the Iroquois and their attorneys the committee will go to Washington and consult with the Commission on Indian Affairs.

Another subject to be investigated is the question of Indian citizenship. Many of the Iroquois are prosperous and well educated and there is a growing sentiment in favor of making them citizens, and no longer the wards of the government.

SHE LOST TO "BUCKET SHOP."

MRS. ESTHER STICHTENOTH OF CINCINNATI GETS BUSY.

Secures Appointment of a Receiver for the Three Largest Concerns of the Kind in the United States and Also Ties Up Half a Million Dollars in Bank.

CHICAGO, July 19.—Mrs. Esther Stichtenoth of Cincinnati filed today in the United States Circuit Court a bill asking that a receiver be appointed for the Central Stock and Grain Company of Chicago, the Central Stock and Grain Exchange of Hammond, Ind., and the Hammond Realty Company of Hammond. Judge Bethes of the court appointed, in response to the bill, the Equitable Trust Company as receiver for the assets of the two grain exchanges and the other property of the Hammond Realty company, who is the chief stockholder and practical owner of the concerns mentioned.

Recently Mrs. Stichtenoth obtained a decree for something over \$11,000 upon the showing that her money had been used in speculation in a "bucket shop." In her bill it was declared by Mrs. Stichtenoth that McMillan moved to Indiana, with the consequence that no levy could be made on the property of the alleged "bucket shop" concern, and she was unable to obtain any portion of \$500,000 said to be held by a national bank of this city for McMillan.

The bank was also named in the bill, it being asked that the officers of the bank be enjoined from transferring the money. The restraining order against the bank was issued at the same time as the appointment of the receiver was declared.

Various companies named in the court proceedings and controlled by McMillan are the largest of their kind in the United States, having a leased-wire system that covers nearly every State in the Middle West.

KING O'KEEFE'S WIVES.

American and Native Consorts of the Boss of the Carolines Will Divide His Estate.

HONOLULU, July 19.—[Exclusive Dispatch.] Advice from Yap, in the Caroline Islands, says the contest over the million-dollar estate of "King" O'Keefe of the islands has been compromised, the estate being equally divided between the American and native wives.

O'Keefe went to the Carolines in the '60s and by shrewd trading amassed a fortune and gained great influence over the natives. He built schooners, and on many islands was practically ruler. He married a native woman, who bore him half a dozen children. About five years ago, he died while returning from Hongkong to Yap. His fortune was taken by the widow and family in Yap, but it developed that O'Keefe had a wife in the United States, to whom he had sent regular remittances.

The American wife sent a lawyer from San Francisco to Yap to file her claim and a compromise resulted when he presented his proofs.

SENSATIONAL SPECULATION.

BERLIN, July 19.—Sensational speculation is going on in the Berlin Bourse in the shares of the Deutsche Luxemburgerische Mining Company, which today recorded a jump of 20 per cent., making a total rise of 53 per cent. since June 30. The Bourse is much puzzled over the meaning of this speculation, which recalls many features of the great struggle over the Hibernia Coal mines, last summer, between the banks and the Prussian Treasury department to secure control of the mines.

"WRITE DOWN THE WHOLE OF RUSSIA."

Police Trying to Break up the Moscow Zemstvo Congress are Jeered.

Voice of Liberty Heard When Trepoff's Agents Take Down Names of Delegates in Attendance—Bouligan Reform Scheme Denounced as Not Truly Interpreting the Will of the Nation.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, July 19.—[By Atlantic Cable.] A circumstantial report of an attempt on the life of Constantine Petrovitch Pobedonostzeff, chief procurator of the Holy Synod, is current in St. Petersburg. The authorities, and even the police at Tsarskoe-Selo railway station here, where the attempt is reported to have been made, disclaim all knowledge of any happening. According to the report, as Pobedonostzeff stepped from one of the coaches of the train from Tsarskoe-Selo, where he is resting during the summer, to the platform, a man about 25 years of age rushed up with a revolver in his hand, but he was seized by a quick-witted passenger before he could shoot and was turned over to the police.

MOSCOW, July 19.—The Zemstvo Congress opened at midday today in the residence of Prince Dolgoroukoff. The congress was attended by 225 delegates. Count Heyden, leader of the deputation representing the committee recently received by the Emperor, presided.

Golovine, president of the Organizing Committee, had barely started a statement dealing with the obstacles placed in the way of the congress, announcing that Gov. Gen. Kosloff had promised that there would be no recourse to extreme measures, when the chief of police, with numerous commissaries and officials, entered the room. The chief announced that the congress had prohibited the meeting of the congress, and ordered the seizure of the delegates.

Count Heyden protested against the proceedings, but the chief of police began taking the names of the delegates. Then cries were raised of "Write down the whole of Russia!" Many persons present who were not delegates to the congress requested that their names also be taken. The police then departed in order to draw up summonses and the signing was resumed.

"TAD" LINCOLN'S PLAYMATE.

Death of Gustav A. Schurman, Who Was One of the Youngest to Enlist in the Federal Army.

NEW YORK, July 19.—[Exclusive Dispatch.] Gustav A. Schurman, one of the youngest to enlist in the Federal army at the outbreak of the Civil War, drummer boy and bugler for Gen. Birney, Stoneman and Sickles, and a friend and playmate for months at the White House of little "Tad" Lincoln, died today at the home of his daughter, Mrs. W. F. Wassman, from consumption. Schurman was 55 years of age, and had been ill for about three years.

At the outbreak of the Civil War, he was only 11 years old, a bright little boy, the son of a poor family, trying to help his parents, who were very poor. His father prevailed upon Col. Riley of the Fortieth New York regiment to take the boy, and it was not long after that he was an orderly for Gen. Kearny at the battles of Seven Pines, Malvern Hill and others of that campaign.

WORLD'S TINIEST BABE.

Little Girl Weighing One and One-Quarter Pounds is Being Raised in an Incubator.

CHICAGO, July 19.—[Exclusive Dispatch.] The tiniest baby in the world, now lying under a glass in an incubator at the White City, is facing the task of growing four times its present size in the next three months. This human atom is a girl, weighing one pound four ounces, and is said by the doctor to be just 8 1/2 inches long.

The baby came into the world three months too soon, yet she is perfectly formed, and the little eye looks wonderingly upon the world. The baby was brought to the hospital from Laporte, Ind., by its father, who carried it in a small shoe box, lined with cotton to make a soft bed.

In three months the babe should weigh five pounds. To do this it is being fed on milk and oxygen, every hour, day and night, five grams of human milk is fed it through a tube. Three times a day sixty bubbles of pure oxygen are put into the incubator for the babe to breathe.

the congress resumed its deliberations as if nothing had happened. The government is now in a ludicrous position. In spite of their arbitrary and discretionary powers, the police cannot even prevent a gathering of citizens. The government and its arsenal of decrees and circulars no longer command obedience except when backed by bayonets.

BOMB THROWN IN FINLAND.

VICE-GOVERNOR'S BLOOD SHED. [BY THE ASSOCIATED PRESS—P.M.]

HELSINKI, July 19.—Late this afternoon, two hours before Karl Leonard Honthal had been sentenced to imprisonment for life at hard labor for the assassination of Procurator-General Soisalon Soisalo, an attempt was made to assassinate Vice-Governor Deutroch as he was leaving the Senate.

The Vice-Governor had walked across the square, when suddenly, as he neared the police master's office, a man on the curb threw a bomb from a distance of fifty paces. The bomb fell short, but the Vice-Governor was blown off his feet by the terrific force of the explosion, which shattered the windows in the neighborhood for a distance of hundreds of yards.

Vice-Governor Deutroch was hastily assisted to the police station. He was burned and otherwise injured about the legs, and bled profusely, but his wounds are declared not fatal.

BRITISH ALIENS BILL PASSED.

LONDON, July 19.—In the House of Commons today the Aliens Bill passed its third reading by a majority of ninety. Premier Balfour, in winding up the debate on the bill, contended that the proposed restrictions were less severe than those imposed by any other nation. He referred to the American immigration laws and asked whether anyone would assert that the Americans were indifferent to freedom or looked with unmoved eye on the suffering and oppressed, yet their restrictions as well as the re-imposed by the British colonies, were, he said, more severe than those imposed by "this moderate and reasonable bill."

HEAT AFFECTS CLARK.

NEW YORK, July 19.—[Exclusive Dispatch.] United States Senator W. A. Clark suffered considerably today from the heat. It was learned tonight at his home that Clark's temperature rose slightly as the result of hot weather, and was about 100 degrees during much of the day. This is not regarded as alarming, however, and it is understood that, aside from the heat, the conditions were very favorable to the patient.

COMMANDS GRAND ARMY.

Capt. John R. King Pays Tribute to Gen. Blackmar and Appoints a New Chief of Staff.

WASHINGTON, July 19.—Capt. John R. King today issued his first general order, assuming command of the Grand Army of the Republic. The order pays a tribute to the recently deceased commander-in-chief of the organization, Gen. Wilmon W. Blackmar, and directs that the colors be draped for ten days at every headquarters and at every post of the G.A.R.

A committee is appointed to draft a suitable resolution for the action of the organization at the next annual encampment at Denver. The committee consists of the adjutant-general, the inspector-general, the judge advocate-general and E. B. Stillings of Boston.

The order announces that because of his urgent request, Comrade Schoonmaker is relieved as chief of staff and Comrade McCarty, past department commander of the Department of Minnesota, is appointed to that office. Announcement is made that the adjutant-general is to continue in his duties until his successor is chosen at the annual encampment. All other officers of the staff are requested to remain on duty in accordance with their appointments.

FUNERAL PLANS.

[BY THE ASSOCIATED PRESS—P.M.] BOSTON, July 19.—The arrangements for the funeral of the late Commander-in-Chief Blackmar were completed here today with the exception of selecting the honorary pall-bearers.

The body of the commander will arrive from the west Friday night, Saturday morning the body will be carried to the Hall of Glads in the State House, where it will lie in state from 9 a.m. to 2 p.m. The funeral will be held Sunday at 3 p.m. at the Unitarian Church. The body will be escorted from the State House to the church by the various G.A.R. bodies, the Loyal Legion medal of honor men, Sons of Veterans and Legion of Spanish War Veterans. Interment will be at Cedar Grove Cemetery.

CHINESE GOING FOR AMERICANS.

THE "YELLOW DOG" SHOWING HIS "TEETH" AT LAST.

Boycott of Goods From the United States Begins in South China. Statement From the State Department—Big Meeting in the Malay States.

[BY DIRECT WIRE TO THE TIMES.] HONGKONG, July 19.—[Exclusive Dispatch.] The Amoy correspondent of the South China Morning Post says that the boycott of American goods has commenced there. The comprador of the Standard Oil Company has received a threatening letter ordering him to leave the employ of the company immediately.

Officials of the American consulate were molested yesterday. A meeting of Chinese merchants was held today to discuss the boycott. The Chinese in the Malay native States at a big meeting have agreed to support the boycott.

STATE DEPARTMENT NOTICE.

[BY DIRECT WIRE TO THE TIMES.] WASHINGTON, July 19.—[Exclusive Dispatch.] This brief statement, made at the State Department today, shows the gravity of the situation regarding American trade with China:

"A cable dispatch from Shanghai advises the Department of State that a boycott commenced today. Every effort was made to allay the agitation."

This is taken to mean that in Shanghai, at least, the guilds are not satisfied with the steps taken by President Roosevelt in directing that the Chinese exclusion laws be administered with more consideration for Chinese. In the State Department, the whole agitation is laid to Wu Tingfang, former Chinese Minister to the United States.

MORTON REMOVES JORDAN.

[BY THE ASSOCIATED PRESS—P.M.] NEW YORK, July 19.—Chairman Paul Morton of the Equitable Life Assurance Society today summarily removed as comptroller J. D. Jordan and appointed in his stead William A. Day, assistant Attorney-General of the United States.

Chairman Morton gave out a statement in which he said: "The reason for Mr. Jordan's removal was his refusal to furnish me information regarding important transactions of the society which I am investigating."

WESTINGHOUSE'S PLAN.

[BY DIRECT WIRE TO THE TIMES.] NEW YORK, July 19.—[Exclusive Dispatch.] Trustee George Westinghouse gave out a new plan of turning the Equitable stock over to the policy holders, just previous to sailing for London. In brief, the plan provides that all of the present owners of the Equitable stock shall place their holdings in the hands of trustees, who will have power to vote to amend the Equitable charter so that there will be, instead of 1000 shares at \$100, 5000 shares at \$20 per share. These 5000 shares, Westinghouse suggests, shall be offered to the 5000 largest policy holders of the company at \$1000 each, and in the event of failure to sell, to

CRAFTERS AT BAY.

Papers Prepared by Attorney-General.

First Action Contemplated Will Be in the Nature of Weeding-out Process.

Equitable Directors False to Their Trust Will Next Be Prosecuted.

Oldest Living Employee Dropped—Westinghouse's Project—Morton Busy.

[BY DIRECT WIRE TO THE TIMES.] NEW YORK, July 19.—[Exclusive Dispatch.] Nevada N. Stranahan notified Morton today that he would be unable, because of the press of official business, to take a place on the Equitable directorate. William A. Day, Assistant Attorney-General of the United States, has been appointed acting comptroller of the Equitable society, vice Thomas D. Jordan. Day was auditor of the United States treasury during the first administration of Grover Cleveland. It is said Day's salary will be \$25,000 a year.

Thomas D. Jordan, the oldest living employee of the Equitable and for the past decade comptroller at a salary of \$25,000 a year, was summarily dismissed today. Coinciding with the removal of Jordan, State Superintendent of Books Kilburn took charge of the books of the Mercantile Trust Company and put examiners on them for the purpose of finding out all the details concerning the mysterious loan of \$635,000 to Jordan and James W. Alexander as trustees, that is carried on the books of the trust company as a charge against the Equitable.

Morton's experts were put to work on the \$635,000 loan a week ago, and it was said tonight that the investigations thus far point to only one use that has been made of the fund. That is, in the stock market transactions. Jordan refused to throw any light on the matter, and his dismissal followed.

Atty.-Gen. Mayer is busy with the preparation of his suits against the "grafting" directors. It is probable the papers in his first action will be ready today. The first action Mayer contemplates is a sort of blanket suit that will include every man who was on the Equitable board when the fight for the control of the cash began. This suit will bring every one of the men who were false to the trust imposed upon them by the 600,000 policy holders to the bar of justice.

Mayer's next action will be to file suits against all men who have participated in syndicate profits made money from the buying or selling of bonds or stock to or for the Equitable society, directly or indirectly, and who may have in any manner participated in any profits that have been made as the result of any dealings with the funds of the society.

STRANAHAN RESIGNS.

[BY THE ASSOCIATED PRESS—P.M.] NEW YORK, July 19.—The following was given out from Morton's office tonight:

"N. H. Stranahan declines to serve as a member of the Board of Directors of the Equitable Life Assurance Society, owing to press of official duties which will make it impossible for him to give the time necessary to devote the proper attention to the work of the directors."

WESTINGHOUSE'S PLAN.

[BY DIRECT WIRE TO THE TIMES.] NEW YORK, July 19.—[Exclusive Dispatch.] Trustee George Westinghouse gave out a new plan of turning the Equitable stock over to the policy holders, just previous to sailing for London. In brief, the plan provides that all of the present owners of the Equitable stock shall place their holdings in the hands of trustees, who will have power to vote to amend the Equitable charter so that there will be, instead of 1000 shares at \$100, 5000 shares at \$20 per share. These 5000 shares, Westinghouse suggests, shall be offered to the 5000 largest policy holders of the company at \$1000 each, and in the event of failure to sell, to

Harry Barr, the celebrated skipper, was defeated today at the hands of Harry Maxwell, an amateur sailor. Capt. Barr commanded the yacht Mineola, owned by W. Ross Proctor, and young Max-

ABLE SOULE of South Pasadena fulfilled yesterday's expectations and took second place in the scholarship contest. She passed Helen Pitner by 440 points, or nine months' subscription (new) to the Daily Times.

Arthur Carpenter still holds the lead, having deposited 3066 merits in coupons and new subscriptions. On Tuesday Carpenter drove twenty-five miles in canvassing for subscriptions, and was assisted by charming Miss Lane, who was in the contest last year.

Helen Pitner, who led the contest for eleven days, has fallen back to third place. She is not discouraged, believing that she will win the contest.

But this is where generalship in the scholarship campaign is tested. The student who induces his friends to help him collect coupons and merit points, rather than the one who depends solely upon what he can produce by himself. This is true in every business enterprise. The scholarship contest is conducted upon the lines and system of a business enterprise.

The highest score of the day is made by St. Clair Morton of Santa Barbara, who sends in 223 points, or something more than five new subscriptions for one year each.

The Santa Barbara boy has come from ninth to seventh in one day. For two weeks he has been forcing his way toward the top of the list. If he continues the pace he struck some days ago Sunday morning will find him in the second or third station.

With a gain of 2116 points Hazel Doyle of Santa Monica advanced from thirty-third to the twenty-sixth place. She should be in the cash-prize list by Sunday, at the rate she has been moving.

Audrey Newton gives evidence of the locality pride of Ventura by sending in 2322 points. By this, in one day, she has moved from twentieth to fifteenth place and is now within the cash prizes.

Jefferson Ammon, the colored candidate, who entered the contest late, moves from fifty-fourth to forty-fifth place as the result of one new subscription for a year and another for four months, with some coupons thrown in. The Santa Barbara boy, who is a person of his own color, also from white people for whom he has worked and who want to help him.

Albert Capron, the swift-running candidate of Alhambra, is gladdened by a pleasing letter from Mrs. W. O. Smith of Ocean Park. Among other encouraging expressions Mrs. Smith writes: "Find enclosed coupons to help you with your scholarship. I used to live at Alhambra, so I am interested in you because you live there, and I believe you to be worthy of my help. I will do all I can for you."

Three contestants have dropped out of the contest this week. Three new recruits will be allowed to take their places, but not to begin with their scores. Here is the chance for grit and determination to show itself. Last year several scholarships were won by students who entered late. Of course those who begin early and stay with the con-

CARRIE MACLOSKEY, Culver at past accomplishments, born perfect domestic duties, now seeking a business education.

Living after 5 p.m. are not counted until the day following. Cash must accompany all subscription orders. It requires no cash to vote the coupon. With the coupon the element of value is within itself.

PRIZES AT STAKE

The contestant having the highest score at the close of the contest will have first choice of the following scholarships. The second highest will have second choice and so on to the bottom of the list. From time to time the list of scholarships will be enlarged as the number of contestants multiply. The Times already has one and in some instances two scholarships in every one of the following institutions. Every school is considered excellent in its line.

- University of Southern California
- Throp Polytechnic Institute
- Dobson School of Expression
- Occidental College
- St. Vincent's College
- Los Angeles Military Academy
- Cummock School of Expression
- Los Angeles School of Art and Design
- Los Angeles Conservatory of Music and Arts
- Boston School of Expression and Physical Training
- Department of Oratory, University of Southern California
- Los Angeles School of Fine Arts
- Los Angeles Business College
- Southern California Business College
- Woodbury Business College
- Brownberger Home School
- Y.M.C.A. Special Course of Study
- Long Beach Business College
- Pacific Telegraph School
- Castro's Select Academy of Language
- Department of Oratory, Los Angeles Conservatory of Music and Arts
- Bertha's E. Hancock, Director
- Long Beach Conservatory of Music
- Academy of Expression, Culmloch School of Expression
- Signer Pietro Buzzzi's Vocal Studio
- Filmore Piano School
- Lyrice School of Music, Lucia M. McCune, principal
- Rosenblatt's College of Garment Cutting and Ladies' Tailoring

CASH PRIZES ARE ADDED.

The scholarships, whose cash value runs into the thousands of dollars, will not be the only prizes at stake. The Times will supplement a number of the scholarships with cash prizes to help defray the student's incidental living expense while attending school. Besides the scholarships the fourteen students who finish in the lead will receive cash prizes approximately as follows:

1. Cash with second choice of scholarship, \$100.
2. Cash with third choice of scholarship, \$125.
3. Cash with fourth choice of scholarship, \$150.
4. Cash with fifth choice of scholarship, \$175.
5. Cash with sixth choice of scholarship, \$200.
6. Cash with seventh choice of scholarship, \$225.
7. Cash with eighth choice of scholarship, \$250.
8. Cash with ninth choice of scholarship, \$275.
9. Cash with tenth choice of scholarship, \$300.
10. Cash with eleventh choice of scholarship, \$325.
11. Cash with twelfth choice of scholarship, \$350.
12. Cash with thirteenth choice of scholarship, \$375.
13. Cash with fourteenth choice of scholarship, \$400.
14. Cash with fifteenth choice of scholarship, \$425.

spatch. During the tremendous rush incident to the heated spell, the attendants at the various beach resorts have become very overbearing, so when five of them tried to bully "Kid McCoy" at Parkway baths, this evening, they got bowled over like nincompoops by the long-suffering public present. In some hundreds voted "Kid" all right.

When "Kid" went to pass out, he failed to return the bath-house key, having left it inside. The keeper suggested that McCoy was trying to slich a fine bathing suit, and followed it up with a swipe at the "Kid's" nose. The "Kid" sidestepped and the keeper, who was over six feet, got his. Four others leaped into the fray and were laid out in a row. Then somebody recognized the "Kid," and the keepers humbly apologized, while the crowd cheered and wanted to make the fighter the guest of honor at a champagne bout.

**SIWASHES GET
ANOTHER ONE.**

**WIN IN ELEVENTH ROUND ON
FOUR LONG SWATS.**

Dolly Gray Has Hard Time to Keep from Hitting Siwashes on the Head. When He Missed Them They Hit Him All Over the Lot—Waiters' Batting is the Feature.

Seattle, 2; Los Angeles, 1. Eleven Innings.

Dolly Gray had about as much yesterday as the big banks have when the Aneseer goes around on March 1 to see how things are going in the city.

On the other hand Miller had just what the banks have on March 3, when they have had time to clean out that big hole in the cellar floor and fill it up with dirt again.

It took eleven long innings, however, to put us where the corporations have the Aneseer when the board gets through with it. Although the companies' tears and it might not have been so bad if Dolly had not spent so much time trying to hit all the Siwashes on the head. This is the proper thing if you are a union labor slugger or a prizefighter, but it is not necessary in baseball. This is the only reason why playing on the New York National.

Gray hit two Siwashes and Spies soaked another and in the effort to keep from plugging others in he cupped Dolly put the ball over just where they could rap it back a mile a minute and now, all the runs they needed in the business.

It was a corking game until the last inning, for the hits were scattered very promiscuously all through the game, a desperate batting rally for the Siwashes to win at supper time. Miller, the San Francisco cast-off, was as good as any team could want and the fact that he wasn't the better he was. The Looloos had the time of their lives trying to break him down, but they couldn't get any more reductions than they did. In four innings the only way any of them could get to first base was by riding on a pass that was only good to the first stop-pling place. They did manage to get one round-trip, but it was due to one or more swats that they stole away from him when he was looking straight.

Heads in front of the Siwashes made a beautiful running catch and Smith had a fine assist on a high ball that "e knocked down and then captured on the run in time to throw the batter out at first. These were the principal features of the struggle aside from the good batting of Waiters, Smith and Miller. About 1000 fans watched the game. Umpire Bray called an evil eye for balls and strikes and turned on the run in time to throw them to be able to tell the difference between them.

The Siwashes scored first in the fourth on Kane's single and steal. Blankenship's sacrifice and a run-home after that, catch of Houli's long fly to center. Then the Looloos kept struggling to get above water and finally made it in the eighth inning on Spies' single. Gray's sacrifice, Bernard's closing in the run line until the first of the eleventh, when, with two out, Gray seemed to get that tired feeling that the magazine ads have in the summer time. Russ Hall singled to right and then Miller tripled to the center fence, Bernard missing the fly tie to center on the run-up and the ball going to the fence. Hall scored and Miller reached third and came in on Walters' fourth hit to center. The Looloos could do nothing for their half.

GAVE OAKLAND THE GAME.
HOGAN'S PITCHING EFFECTIVE.
 (BY THE ASSOCIATED PRESS.—P. M.)
 SAN FRANCISCO, July 15.—Effective pitching by Hogan and timely bunting of hits in the first, second and ninth innings gave Oakland the game with San Francisco today, the score being 3 to 1. But three hits were scored off Hogan, while Henley had poor luck, ten hits being scored off his delivery. Splendid fielding by Franks was the feature of the game. Score:

USED THREE PITCHERS.

YET TACOMA COULDN'T WIN.

(BY THE ASSOCIATED PRESS—P.M.)

PORTLAND (Or.) July 13.—Tacoma used three pitchers against Portland today, but it availed them nothing, for the locals had their batting clothes on, and won the game in the ninth inning. Emerson and Keefe were batted out of the box in the first inning. Tacoma tied the score in the seventh, after Runkle muffed an easy fly which should have retired the side. At's fielding was the feature of the day. Score:

Tacoma, 5; hits, 10; errors, 2.
Portland, 6; hits, 14; errors, 2.
Batteries—Emerson, Keefe, Fitzgerald and Grubbs; Corbett and McLean. Umpire—Davis.

NATIONAL LEAGUE GAMES.

CINCINNATI GAINS VICTORY.

(BY THE ASSOCIATED PRESS—P.M.)

PHILADELPHIA, July 13.—Bunched hits in the fifth and seventh innings, today gave Cincinnati a victory over Philadelphia. Both teams batted hard. Attendance 4500. Score:

Cincinnati, 5; hits, 10; errors, 1.
Philadelphia, 4; hits, 12; errors, 2.
Batteries—Chech and Phelps; Pittinger, Suthoff and Dootin.
Umpire—Hauseweine.

ST. LOUIS-BOSTON.

(BY THE ASSOCIATED PRESS—P.M.)

BOSTON, July 13.—Willia's wildness in the sixth inning and consecutive hitting in the eighth inning won for the visitors today. Boston rallied at the bat in the ninth, but the lead was too great to be overcome. Attendance 1100. Score:

St. Louis, 7; hits, 10; errors, 6.
Boston, 4; hits, 11; errors, 2.
Batteries—McFarland and Grady; Willis and Moran.
Umpire—O'Day.

PITTSBURGH-NEW YORK.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, July 13.—Pittsburgh made 3 three out of four by winning today's game from New York's men by a score of 8 to 5. Both teams were in good batting form. Attendance, 7000. Score:

Pittsburgh, 8; hits, 15; errors, 0.
New York, 5; hits, 11; errors, 4.
Batteries—Flaherty, Leever and Pett; Taylor and Bowerman.
Umpires—Johnstone and Klem.

a total of five runs had been made. Adams was sent in, and held the locals safe thereafter. Attendance 1900. Score: Detroit, 6; hits, 12; errors, 0. Washington, 2; hits, 11; errors, 1. Batteries--Williams and Doran; Wolfe, Adams and Heydon.

NEW YORK-CHICAGO.
[BY THE ASSOCIATED PRESS--P.M.]
CHICAGO, July 19.—New York nosed out Chicago in a keenly-played struggle today. The winning run was made in the seventh inning, when Conroy drew four balls, Keating advanced him to second on a grounder and Aberde's sharp single brought him home. Attendance 2900. Score: Chicago, 1; hits, 4; errors, 0. New York, 2; hits, 7; errors, 2. Batteries--White and Sullivan; Chesbro and McGuire.

PHILADELPHIA-ST. LOUIS.
[BY THE ASSOCIATED PRESS--P.M.]
ST. LOUIS, July 19.—St. Louis dropped the opening game of the series today. Waddell outpitched Buchanan, while the visitors both outbatted and outfielded St. Louis. Philadelphia was delayed, coming from Detroit, and the game was delayed thirty minutes. Attendance 1900. Score: St. Louis, 3; hits, 8; errors, 0. Philadelphia, 7; hits, 14; errors, 1. Batteries--Buchanan and Sugden; Waddell and Schreck.

TWINS BASEBALL.
SUNDAY DOUBLE-HEADER.
To make up for the game that was not played last Tuesday, Los Angeles and Seattle will play two games on Sunday for an admission. The first one will be called at 1:30 o'clock and the second in fifteen minutes after the end of the first. The captains have agreed that the second game will be called at 4:30 o'clock if unfinished, in order to give the Seattle team time to catch the 5 o'clock train for San Francisco. The Siwashers are due in Portland next Tuesday to play the team of that city, but will probably not be able to reach the exposition city in time for Tuesday's game.

Game Today.
This will be another ladies' day at the ball grounds and the lady fans will be admitted free. Wright will pitch for Los Angeles and Shields or Hall for Seattle.

Bert Will Recover.
SAN FRANCISCO, July 19.—Eugene E. Bert is resting easily this afternoon. His physicians say that he will recover if unforeseen complications do not occur.

TWELVE-CLUB ASSOCIATION.
PULLIAM ON NEW PROJECT.
[BY DIRECT WIRE TO THE TIMES.]
PITTSBURGH (Pa.) July 19.—[Exclusive Dispatch.] "A movement has been launched by several club owners to establish a twelve-club association next season by effecting an alliance between the National and American Leagues, but I don't believe that it will materialize."
So said President Harry Pulliam, president of the National League, to-day.

"That's not an imaginary story that came from Cincinnati concerning the amalgamation of the two leagues," said Pulliam. "I have no definite news on the matter, but am inclined to believe that the several club owners in both leagues are joining forces, and will try to get the so-called 'trust' established. I will warn these men against consolidation. It will jeopardize the game. If the National and American leagues are controlled by club owners whose organizations are leading in the race it will be a fatal mistake."

**SWEET MARIE
RACE WITH**

[BY THE ASSOCIATED PRESS—A.M.]

PHILADELPHIA, July 19.—The speedy New York trotting gelding Sweet Marie, 2:04½, easily defeated Sweet Maria, 2:04½, in a \$5000 match-race today, on the track of the Belmont Driving Club. Tiverton won in two straight heats. About five thousand persons saw the two grand circuit stars race.

Sweet Marie drew the pole. They were sent away on even terms, in the first heat. Tiverton set the pace, and before the quarter pole was reached, had a slight lead. As Sweet Marie passed the quarter pole, she broke, and Tiverton took the lead. At the half-mile post, Tiverton led by several lengths. Sweet Marie again broke at the three-quarter

International singles: McBurney beat Benham, 5-6, 6-0, 6-1.

CHESS MASTERS' TOURNEY.
PLAY ENDS AT OSTEND.
[BY THE ASSOCIATED PRESS—P.M.]

OSTEND, July 19.—[By Atlantic Cable.] The International chessmasters' tournament came to an end today, when Janowski and Wolf finished their game, adjourned from the final round. The contest ended in a draw. Janowski tied with Tarrasch for second and third places, the first prize being secured by Maroczy.

The list of winners follows: First prize, \$1000, L. Maroczy, Budapest; second prize, \$600, and third prize, \$400, divided by R. Janowski, Paris, and D. Tarrasch, Nuremberg; fourth prize, \$200, C. Schlechter, Vienna; fifth prize, \$100, G. Marco, Vienna; sixth, \$100, D. Tieschmann, London.

JOCKEY O'BRIEN'S FALL.
INJURIES MAY BE FATAL.
[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, July 19.—In the steeplechase, Jockey O'Brien, who had the mount on Gate Belle at Brighton today, fell at the middle jump on the back stretch and sustained injuries which may prove fatal. Rubs, who was favorite for the steeplechase, broke his leg in the stretch, and was later killed. Results:

ter pole, and Tiverton passed under the wire well in hand and two lengths in the lead. His time for the mile was 2:10 1/4, lowering the track record for trotters in a race one second.

Tiverton led at the quarter in the second heat, and increased it to three lengths at the half-mile post, going to the three-quarter pole, sweet Maria picked up some of the lost ground, and both trotters came into the stretch almost on even terms.

The spectators looked for a close finish, but at the eighty-yard pole the mare broke, and lost her chance to win. Tiverton came under the wire in a fine stride, several lengths in the lead. His time was 2:07 1/2, while placing the track record at a figure hard to beat.

von, Listless second, Senecah third; time 1:48.

Steepchase, about two miles; Gracie Way won, George Kere second, Neponse third; time 4:24.

Freteonion, second, Norvena, won, Head Dance second, Voladay third; time 1:47 3-4.

Six furlongs: Accountant won, George C. Bennett second, Oromand third; time 1:14 2-3.

Five and a furlong: Bad News won, Freteonion second, Geranium third; time 1:51 3-4.

Six furlongs: Klamesha won, Fleur de Marie second, Gold Rose third; time 1:13 4-5.

SEATTLE PLAYERS.

NEWS OF THE NEW ONES.

As there are several new faces in the Seattle team it might be well to state that Walters was with Charles Reilly's Pacific National championship league team here several years ago. Blankenship was once with the St. Washes and then went East to play in the Cincinnati team; Center Fielder Hart is from the Louisville team; Mooney is the old Denver player; and Pitcher Triller is the one San Francisco traded with Seattle for William the blonde—and Russ Hall didn't get any the worst of the deal either.

MISS SUTTON'S MATCH.

TO MEET MISS MATHER.

(BY TELEGRAPH TO THE TIMES.)

NEW YORK, July 18.—[Exclusive Dispatch.] The fact that Miss May Sutton, who made such a brilliant showing on English tennis courts recently, will compete in the annual tri-state lawn tennis tournament at Cincinnati, O., August 28 to September 4, will lend national flavor to the competition.

The Ohio Lawn Tennis Association is un'ring in its efforts to bring together the best players of the country. Miss Sutton has never played against Miss McAtter of Pittsburgh, the present woman title holder of the tri-State League, and an exciting match is looked for when the pair come together.

GLIDDEN TOURISTS

HAVE ARRIVED AT CONCORD.

(BY WIRE TO THE TIMES.)

CONCORD (N. H.) July 18.—[Exclusive Dispatch.] The Glidden tourists, added something like 100 miles to their record when they made the run from Bretton Woods here, today on the return trip to New York. The course took them down through the Fennegawasset Valley and over the worst roads encountered during the tour. The first few miles were all right, but going through Franconia Notch, some cars had a hard time of it.

The roads were sticky and slippery and the long climb up to Profile House taxed some of the cars to their utmost. The late starters got caught in a heavy thunderstorm near the summit. The first arrival was President E. H. Cutler, George H. Tyrrell arrived a few minutes later, and then came Col. Pope.

"PRICE" DAY

PITH AND POINT.

Mrs. Orton and Miss S. R. Orton of New York City, mother and sister of Miss Orton, are visiting here at the English Classical School.

The resignation of Engineer Frank Anderson of the Villa-street fire department has been placed in the hands of Chief Clifford because he does not care to continue at work under the reduced salary following City Attorney Fitzgerald's ruling.

The Dr. Michener mentioned in yesterday's Times having disposed of the "Gray Gables" property in Los Angeles at a large advance is a resident of Pasadena, having his home at No. 330 North Raymond avenue.

The Board of Education yesterday evening opened bids for the new kindergarten building to be erected as an adjunct to the Lincoln school, and awarded the contract to G. G. Kerr at a stated price of \$287. The structure will be located at the intersection of Lincoln avenue and Peris street, adjoining the present Lincoln school. The plans for the buildings are by Architect Edward.

Those who have signed up the roster of the new long-range rifle club are F. E. Wilcox, E. D. Neff, Grosvenor Watkins, Dr. E. R. Chadbourne, C. H. Scoville, Benjamin Bloomer, Dr. T. S. Updegraff, E. H. Greenendyke, E. C. Bailey, Leigh Guyer, Claude Guyer, D. J. Leland, E. J. Crockett, George P. Carey, Volney Craig, Jacob Manar, Joseph Welch, A. W. Armstrong, Lloyd Macy, Charles S. Backus, L. M. Blankenhorn, C. A. Austin, H. Page Warden, W. C. Burns, John S. Craven, F. V. Rider and Ted Ford.

Benjamin Rice, one of the pioneer settlers of Pasadena, died yesterday afternoon at his home on East Washington street. He was for many years actively interested in the real estate business. He is survived by a widow and three children.

Postmaster John W. Wood returned yesterday from a trip to San Francisco, in which he combined business and pleasure.

Dr. and Mrs. A. T. Newcomb have returned from Portland, where the doctor attended the sessions of the American Medical Association.

FINE PUBLIC PARK IN SIGHT.

PUBLIC-SPRITED WOMEN WIN IN MONROVIA.

Induce Board of Trustees to Call Special Election at Which Handsome Library Site and Pleasure Ground Will Be Voted—Proposition Practically Certain to Succeed.

MONROVIA, July 19.—It was decided at the last meeting of the Board of Trustees that the voters of the town be given the opportunity to say if they wish an \$18,000 park site. Taking the entire population into their confidence, the women have selected the block bounded by Myrtle, Palm, Primrose and Lime avenues, and have so valiantly championed the cause of this public improvement that they have secured sufficient names to their petition for a special bond election to secure a reasonably sure majority for the proposition when it comes to a vote.

This has grown out of the movement for a public library site. The \$10,000 Carnegie building will be placed on lots purchased with the \$2000 of bonds recently authorized. The library building, consisting entirely of women, began to cast about for the most popular location and decided that it needed a park to surround it. So their plans grew to their present dimensions, when they proposed to have a five-acre block of park, the library building in the center, the only other building on it being the Granite Block that probably will be purchased for a city hall. A few months ago \$8000 for a park site proposition was defeated, but then nobody knew where it was intended to purchase the ground. The women have secured the cooperation of the Board of Trade. From the first their working agent has been Capt. A. H. Johnson, a leading orange grower and G. A. R. man, who has devoted a great deal of time to securing options. The board of library trustees, who lead the movement, are Mrs. W. F. Marshall, president; Misses A. E. Crockett, Robert H. Chamberlain, Black and Miss Hutchins.

SUPPLIES ABUNDANT WATER.

The trial of the new pumping plant at White Oak station has proved satisfactory. It will furnish the reservoir north of Graystone avenue at the rate of one foot every forty-eight minutes, and with a minimum cost of fuel. It is estimated that this plant will supply the northern part of the city with only eight hours' operation each day.

TO ENTERTAIN TOURISTS.

The Board of Trade has at last perfected arrangements for entertaining the visitors on the Pacific Electric railway. By a public subscription, funds have been raised to furnish carriages for one hour every day to meet the cars at the depot. The passengers for a drive through the beautiful foothill orange groves of this region.

SAVAGE ATTACK WITH STILETTO.

ITALIAN FISHERMAN SLASHES COUNTRYMAN AND FLEES.

Quarrel Over Boat Sale Leads to Assault That May Kill Joe Viche, Father of Six—Cattello Mascolo, After Wielding Keen Blade, Makes His Escape.

SAN PEDRO, July 19.—Cattello Mascolo, an Italian fisherman, in a fit of rage slashed the throat of Joe Viche, another Italian, this afternoon, inflicting injuries which, according to the attending physician, will prove fatal.

Some time ago Viche obtained from Mascolo a bill of sale for the fishing sloop Gondalla. This afternoon, while at work on the end of the Southern Pacific wharf, Viche was approached by Mascolo and a controversy ensued relative to money matters in connection with the sale of the sloop.

Becoming angered, Mascolo, who usually is a quiet and inoffensive person, suddenly drew a stiletto from his bosom, made a lunge at Viche and slashed his throat from ear to ear.

After the affray Viche disappeared, and although a thorough search was made for him by the local officers, up to a late hour he had not been apprehended.

The injured man has a wife and six children.

MARINE RAILWAY.

The Joseph Fellows Yacht and Marine Construction Company gave the Board of Trustees notice last night that at the next meeting it would make application for a franchise in the outer harbor to be used for the construction of a dry dock and marine railways.

SPIRITUALISTS STIRRED UP.

Simpson Will Undertake to Convince a Medium That She Never Converses With Dead Husband.

Evangelist Simpson is having lively times at his tent meetings, at the corner of Sixth and Hill streets, where he is this week talking on spiritualism.

Last night he had among his auditors, many spiritualists, and a female medium asked the privilege of talking from the platform after the evangelist had closed. She was given the privilege in a spirit of fair-play, and in her argument she declared that she had many times conversed with the spirit of her dead husband.

E. A. Simpson told her that if she would come there tonight he would convince her that she never did any such thing, and she is expected to be on deck to be convinced. The evangelist's subject will be, "The Angels: Are They the Spirits of the Dead?"

UNDELIVERED TELEGRAMS.

There are undelivered telegrams at the Western Union office for George Vollmer, Ann Adams, J. O. Wolf, L. E. McLehman, E. R. McKee, Robert O'Neill, Charles Davis, Miss Julia Haynes, Mrs. George Hendren, Mrs. Ella Evans and Mrs. J. M. Evans.

JOY DIVORCE IS ABANDONED.

Congressman and Wife Are to Be Reconciled.

Society Nerves to Blame for Separation.

Dressmaker Bill Only an Un-timely Incident.

The threatened divorce proceedings between ex-Congressman and Mrs. Charles F. Joy of St. Louis have been abandoned, and a complete reconciliation is promised upon the return to the South of the husband, who is understood to be now in San Francisco.

Mrs. Joy yesterday afternoon left her apartments at the Van Nuys Hotel and went to Ocean Park. A friend of the family, a gentleman well-known in Los Angeles and Pasadena, last night stated that it is her intention to remain in seclusion in the pretty seaside city until after the promised reconciliation has been effected. Since her return to Los Angeles from St. Louis and Chicago, whither she fled suddenly and where she registered at the Auditorium Hotel as "Mrs. J. E. Joy" (the initials being assumed) the Congressman's wife has denied herself to all but two or three intimate friends, and has emphatically declined to receive the cards of newspaper men. Said the friend referred to:

"The misunderstanding between Congressman and Mrs. Joy which has proved such a sensation grew out of an overindulgence by both of them in social life at Washington and in St. Louis. The dressmaker incident merely provided an opportunity for strained nerves to give way. Two more delightful people could not be imagined, and at heart there are few husbands and wives more thoroughly fond of each other. The incident was given to understand that all will be fixed up between them, and that in a short time they will once more present smiling faces to the world."

"The rumors which have gone out that Congressman Joy had been spending his wife's money with a high hand at cards and kindred diversions are wholly false. It is true that he brought with him to Southern California some serious worries brought on by his speculations in stocks and bonds, but he knew all about these transactions and shared his anxiety with him."

"As for the dressmaker incident, I will explain that. Mrs. Joy had contracted a bill for \$600 for some gowns, and then Mrs. Mayo induced her to place other orders which would considerably enlarge the total account. Had not Mrs. Joy been in a state of extreme nervousness her good sense would have saved her from committing this extravagance. But not until after the orders were placed did she conclude that she had done a foolish thing; then she made her second mistake by attempting to hide the facts from her husband. Somebody, probably a friend, told him—and there was a little scene. The dressmaker had not yet filled the orders, and he tried to tell her of an offer of \$500 and the orders to go unfilled. This was refused, and he raised his offer to \$1000, a sum really in excess of the value of the prospective gowns. This also was refused, because, as later discovered, Mrs. Mayo was bankrupt and the Joy orders had been scheduled as her principal asset."

"When two high-spirited people are going along on the ragged edge of a nervous breakdown, as in the case of Congressman and Mrs. Joy, any little jar on the domestic track will jounce them off onto the rocks. Sometimes an explosion follows and there is an ugly wreck to pay. Both of these estimable people took the Mayo incident, unpleasant as it undoubtedly was, far more seriously than they would had either of them been in quiet possession of ordinary everyday sense. Distorted publications by a malicious and unscrupulous morning newspaper thwarted what hope there was of smoothing the matter over, and presently Mrs. Joy disappeared to be located eventually in Chicago."

"The running away was a quite foolish act—the act of a hysterical woman. Instead of helping matters it added to the wretchedness of both. Now, however, Mrs. Joy has returned, and the next and final act in this little domestic drama will be a reunion and reconciliation, either in Ocean Park or Los Angeles."

"There never was any doubt of Mrs. Joy's affection for her husband, nor have I seen anything to shake my belief in his tender attachment to her. Again and again in days lately passed, when the dressmaker incident was its miserable worst, Mrs. Joy has given way to bitter tears because of the temporary separation, and affirmed vehemently that there was no other such a patient and loving husband as hers. For one reason or another the real desire of both of them to be reconciled found no intermediary through which to work, and the foolish breach widened into an absurd gulf. Fortunately they are people of too good sense to wreck their whole future happiness on such an insignificant cause."

Beautifying a Railroad.

That the beautification of a railroad, where it traverses a city and its suburbs, should be considered the duty of the management as much as the proper care of equipment and the maintenance of roadbed is an idea which is gradually gaining strength among railway men, and has already found practical exposition on some of the Eastern systems. It has been found that it pays to have a line of tracks bordered with well-kept grass; that suburban stations, beautifully situated and of attractive architecture, are a profitable investment from the passenger traffic maker's point of view. When the suburban dweller gets to feel at home the moment he steps from the train, and when the chance traveler comes to recall the beauty of the roadside as one of the pleasures of the trip, the aim of the railway landscape gardener may be said to have been reached. Many a road has gained patronage over a competitor simply because of the greater attractiveness of the scenery along its route, and persons who travel extensively are impressed with the growing attention paid by certain roads to the improvement of already existing natural advantages. It is about twenty years since the first experimental steps in this direction were taken. The Pennsylvania, the Old Colony and the Boston and Albany seem to have conceived the idea about the same time.—[Railroad World.]

Geo. H. Peck, Pres. R. S. SAUNDERS, Mgr.

Chamber of Commerce Building

The magic charm of the balmy southern sea, attracting humanity to its sandy shores as the magnet draws particles of steel, has reached far inland again, and the annual rush to the coast is on. This summer the hegira from the cities, especially Los Angeles, is greater than ever, and the interest in the near-by beaches unparalleled. Men, money and brains have wrought wonders at our beautiful ocean resorts, and thousands have purchased sites and builded homes within sound of the Pacific's white surges, where a few years ago was but a dreary waste of sand dunes. The wonderful development goes on apace, and marvelous places spring up along the stretching strand. It is the banner year of the Southern California seashore.

REGAL CHARMS OF REDONDO.

Rich in Promise is "Queen of
the Pacific."

Far-famed as Pleasure and
Fishing Resort.

Huntington's Magic Touch
Pushes it Forward.

Redondo Beach with its beautiful hotel—a miniature edition of the famous Hotel del Coronado—has been termed by its admirers "the Queen of the Pacific." There is not a resort on the Coast that commands a more charming sweep of scenery than Redondo, sitting in stately pride on the slight elevation that lifts it above the surf that rolls majestically at its feet.

Beginning at the beach, the land rises gradually in a gentle slope, like the rising tiers of a great auditorium, giving dwellers in the rear the same advantage over their more favored neighbors in the front rows of lots that affords in the back rows of the dress circle enjoy—that of looking over their heads of the stage—which, in this parallel, means the ocean and its sandy beach.

As a shipping port and a favorite fishing place, Redondo has for years enjoyed its share of patronage. It is here that the choice and delicate little pompano—the delight of the epicurean's palate—is caught in great quantities by the fishermen. This fish is conceded to be the most delicious of any on the Coast and readily retails at \$1 a pound in San Francisco, to which point large quantities are shipped from Redondo.

The big ocean steamers plying up and down the coast have for years called regularly at Redondo, and freight vessels have discharged their cargoes at this port from foreign countries, to say nothing of the lumber schooners that leave here immense cargoes of lumber brought down from the North.

REST AND RECREATION.

Special attention has been paid to athletic recreation in the way of entertainment for the small, but select number of guests who have for years habitually sought rest and recreation at Redondo, either at the elegant hotel or in the numerous handsome cottages that have been built along the bluff by some of the wealthy citizens of Los Angeles. A fine golf course, admirably laid out, is one of the attractions, and three splendid asphalt tennis courts, surrounded by comfortable seats, awnings, dressing-rooms and refreshment booths, afford every convenience.

The famous Redondo carnation fields, covering ten acres, have a worldwide reputation. About 4000 carnations are shipped daily from these gardens, which have been located there for more than ten years.

Redondo is reached by one line of steam railroad, as well as by trolley from Los Angeles, and just now is entering upon what will undoubtedly be the beginning of a great era. Despite all its natural advantages, Redondo has for many years been sleeping, as it were, while sister resorts along the coast were wide awake.

A couple of weeks ago, however, the magic name of Huntington awoke this fair dreamer by the sea and for several days there were enacted there the wildest scenes of mad speculation by feverish and frenzied speculators, who imagined that fortunes might be made at the turn of a hand. In less than a week, however, the place of this horde of "get-rich-quick" speculators has been taken by safe and sane investors and the awakened seaboard city bids fair to overtake and eclipse some of its competitors, who have gained the advantage, while it has been sleeping—coming into its own by process of the same magic wand that has built

Bath House and Swimming Pool, Venice

up and developed them—capital, push and enterprise.

RICH IN PROMISE.

Mr. Huntington has bought, not only the townsite, but the Redondo Railroad, the wharf, and a controlling interest in the great 1000-acre Los Palos Verdes ranch, which stretches along the bluffs almost to San Pedro, familiarly known as the old Downey ranch. It does not need a prophet to foretell what this means to Redondo. With characteristic enterprise and liberal outlay of capital, Mr. Huntington will doubtless create here one of the famous resorts of the entire Pacific coast. Already he is doubling the townsite and has begun street improvements, at the same time maintaining the wise policy of not ad-

would extend even to the Philippines could one's vision be sufficiently prolonged, and if Catalina Island were not in the immediate foreground.

The Redondo Electric Railway system is to be extended along the coast through the big ranch, thus opening it up for settlement and connecting it with San Pedro and the beach resorts below. This will form the connecting link, which will make a continuous line of resorts running almost from San Diego to Santa Monica.

WILMINGTON AWAKE.

One of Southern California's Oldest Towns, With a Giant Future Ahead.

After a sleep of almost half a cen-

Hotel and grounds at Redondo.

vancing the price of lots from his original offering.

The town has good schools, churches and many well established business houses and its new owner has agreed to enlarge the wharf facilities, put in big manufacturing center when the lagoon shall have been transformed into a great inner harbor with immense wharves at which will be discharged the cargoes of the nation. Wilmington is one of the oldest towns in Southern California, having been laid out in 1869 by Gen. Banning. For years it was used as a government supply

tury at the head of the quiet lagoon that stretches back from San Pedro a mile and a half inland, Wilmington has awakened to find herself an important commercial port that is bound to be a big manufacturing center when the lagoon shall have been transformed into a great inner harbor with immense wharves at which will be discharged the cargoes of the nation. Wilmington is one of the oldest towns in Southern California, having been laid out in 1869 by Gen. Banning. For years it was used as a government supply

area exceeds that of Europe and the United States combined, the importance of this little town that lies at the head of the great port of entry takes on huge proportions. The harbor as now utilized extends 3000 feet from the mouth of the jetty to the lower end of Wilmington Lagoon, a tidal flat basin with a high-water area of nearly two square miles, and when this lagoon has been dredged out and opened up Wilmington will sit at the head of a harbor where the largest ships of the world can safely ride at anchor.

FAIR VENICE OF AMERICA.

Old World City in a New
World Setting.

Consummate Achievement of
Energy and Art.

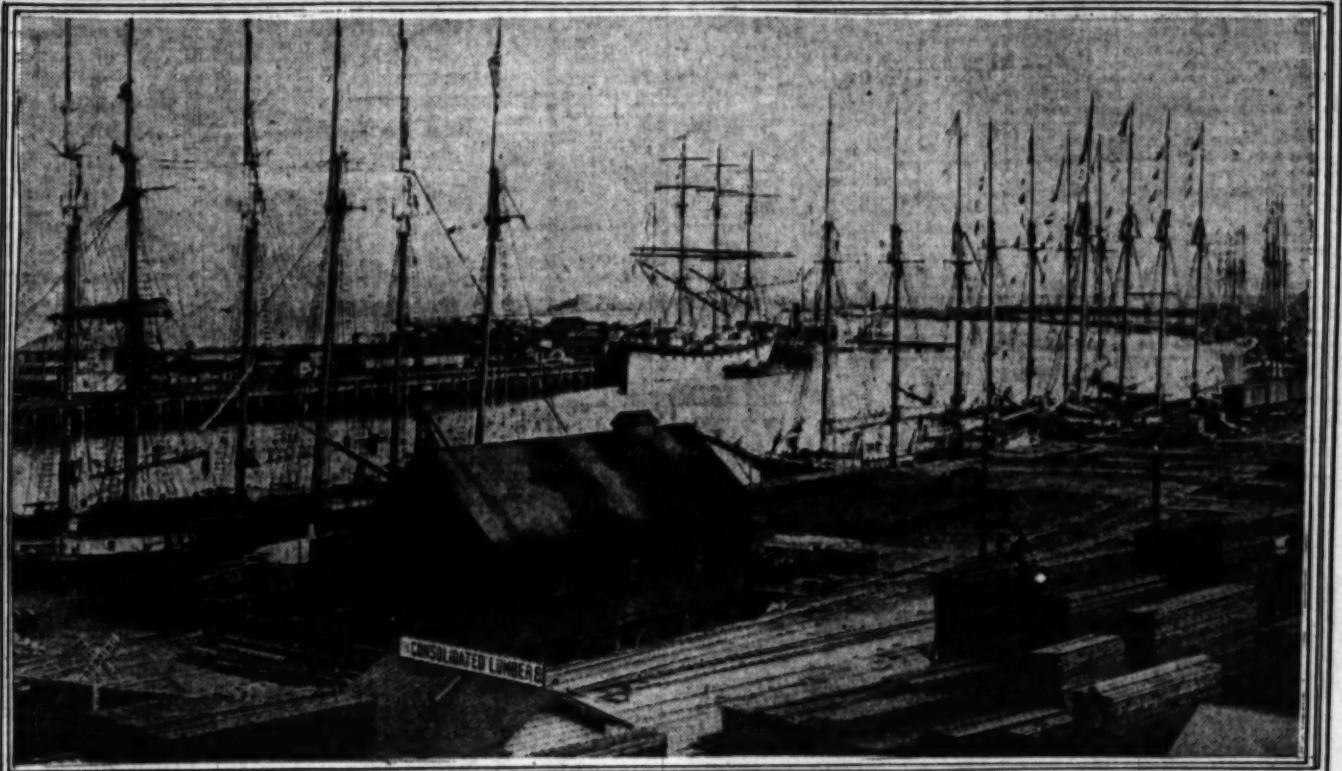

Gayest of All Resorts on the
South Coast.

Of all the resorts that have sprung up in Southern California in recent years, none of them can surpass Venice in point of substantial and rapid development and novelty of design. It is the wonder city of the southern coast, which sprang into being so suddenly as to make folk rub their eyes in amazement. Unlimited capital, creative genius, confidence and push were the magic elements that built in a few months the nucleus of a magnificent city of steel and brick, where naught but sand lay before.

The novel idea of creating here a second Venice, with wide waterways, modeled after the Gondola City of the Adriatic, appealed to the ideal of the picturesque, and people flocked by hundreds with purse strings loosened to secure for themselves summer homes in this unique city. As the plans grew and the monster dredger continued to gnaw its way in and out, devouring sand by the ton in its huge task of making canals all over the flat country lying back of the beach and converting it into a city of broad waterways not limited by its ocean frontage as to bathing and boating privileges, the attractive idea deepened and broadened in proportion as the work of development went on, and a spirit more nearly touching that of the old boom days caught the people. Prices soared skyward and doubled and tripled and quadrupled; additional tracts were laid out, fortunes were spent and fortunes were made in ready deals and improvements—but still the army of workmen and teams and the mammoth dredger went steadily on, and architects and builders continued to plan and erect imposing blocks and public buildings, until today, but a few months from the date of the throwing of the first spadeful of earth, Venice, California's Neapolitan city by the sea—has arisen full-fledged and stands a graceful monument to the push and enterprise that mark the western slope of this Pacific Coast.

A famous Italian artist and sculptor was employed by the company to superintend the work of making the city beautiful—to design the ornamentations of its public buildings, and lay out its canal section with its bridges of exquisite Venetian pattern. There are nine of these canals forming a waterway two miles in length and ranging from forty to seventy feet in width, connected with the ocean by a huge underground conduit, the system so arranged that the water in the canals changes with the tides, twice each day, thereby insuring the health of the city, the pure salt water constantly running through and acting as a germicide.

A dozen bridges will span the waterways at frequent intervals, most of them being now in place and awaiting the finishing touches of the sculptor. The banks of the canals will be beautified with grass and flowers, each having its own particular scheme of color and design. Back of this wide strip of lawn will be broad sidewalks, and ten feet back of the board walks the artistic residences of the dwellers in Venice of America. Gondolas are to be imported from Italy's Venice to ply their tranquil way through the canals, and power launches will dart under the bridges and shoot along the shores of the picturesque lagoons. At night the whole will be brilliantly illuminated by clusters of incandescent lights mounted on ornamental columns placed at intervals of twenty feet along the banks. A final canal, connecting the main waterway with the lagoon at Playa del Rey, two miles south, is now in course of construction. The canals are lined with concrete, and on the floors have been placed a layer of clean white sand. The canals center in a great bathing pool, on the shore of which is a handsome bath-house of Venetian architecture, four stories in height and containing accommodations for more than 500 bathers. On the ground floor is an immense salt-water plunge with a mammoth tank, and connected with the bath-house is a well-appointed gymnasium. The second floor is devoted to a Turkish bath establishment with tubs for hot and cold salt water baths in connection. All along the shores of the canals a tent city has sprung up for temporary use, to be replaced later by artistic villas of the south of France and Italian types of

Shipping—inner harbor. San Pedro.

The Principal Coast Resorts Reached by

The Los Angeles-Pacific Railroad

Extending from Port Los Angeles to Redondo.

Special Round Trip Ticket, taking in all these points, good for 10 days, and good to stop off at any or all of them, 85 cents.

Santa Monica

The oldest and most widely known beach on the Coast, situated on the bluff overlooking the sea. Famous Hotel Arcadia, Fine Bath House, Pleasure Pier, Fishing, excellent surf bathing and miles of shaded and beautiful drives. Fare 50c round trip.

Ocean Park

One of the best representatives of the growing seaside resorts on the Coast, one mile from Santa Monica. Bathing, fishing and every form of beach attraction, including large dancing pavilion, pleasure pier, bath house and roller-coaster. Fare 50c round trip.

Venice

At this point there is an elaborate system of canals and driveways. These canals will be lined with concrete and crowned with balustrade. Here are also a pleasure pier, pavilion, bath house, music auditorium and Ship Hotel, the latter, a most unique feature of this beautiful resort. Fare 50c round trip.

Playa del Rey

"Play Ground of the King," as its name implies, is one of the most beautiful resorts on the Pacific. Between the Lagoon and the Sea stands the immense Auditorium containing several large dining halls, over which is the grand and lofty Convention Hall, surrounded with great spreading balconies. Still water bathing and boating on the Lagoon. Pleasure Pier; surf bathing. Fare 50c round trip.

Venice of America

PARLOR CAR SERVICE

Parlor Car "400" leaves Fourth Street Depot at 5:45 p.m., every evening, running to VENICE without stops, returning 10:45 p.m.

Parlor Car "219" leaves at 6:15 p.m., returning at 11:15 p.m. Tickets entitle every holder to a seat.

Redondo

At this beautiful beach town overlooking a fine natural harbor is located the far-famed Redondo Hotel, commanding the great ocean front, rivaling all others for grandeur of view. Dancing pavilion, bath house, fishing. Fare 50c round trip.

Hollywood

Beautiful Hollywood, "The Bridal Chamber of California," a city of artistic homes. The "Outpost" of Gen. Harrison Gray Otis, Whitley Heights, Laughlin Hill, and many similar beautiful places, including the home of M. Paul de Longpre, the celebrated flower artist. Hollywood Hotel, a most inviting and delightful hostelry, with its renowned Social Hall. Fare 50c round trip.

Sawtelle

Soldiers' Home Station. From this point a short walk brings you within the beautiful grounds of the National Soldiers' Home, with its numerous massive barracks and imposing government buildings covering nearly 700 acres, where are located 3000 of our noble war veterans. Fare 50c round trip.

architecture, light in design and color, having driveways in the rear and waterways in front.

So much for the portion of Venice that lies back from the beach, and covers—or will cover when the complete system of canals and driveways has been laid out—some 130 acres of land. Lying in front of this tract is 750 feet of beach on the ocean front, running back on the sand level for a distance of 900 feet, and here it is that the solid structures have been built and that the business center of the town lies, along Windward Avenue, a boulevard eighty-five feet wide and stretching back from the pier to the wide flight of steps leading down to the lagoon from which diverge the canals. This street lies just one mile south of Ocean Park's Pier Avenue and runs parallel with it, and is destined to be the leading business thoroughfare for all the southern portion of Ocean Park. Like the famous Rue de Rivoli, it is arched its entire length. At its foot are the pleasure pier, the pavilion and theater, the novel ship hotel Cabrillo and the Auditorium. On one corner is the Hotel St. Mark, and built solidly in brick and steel blocks of several stories in height loom up the business buildings extending along the entire north side of the avenue. On the south side next to the pier are laid the foundations of the Hotel Venice, which in beauty of architecture is to equal or surpass any hotel building on this continent. It is to be seven stories in height, its exterior of iron and brick, the body of the structure of buff and old gold pressed brick, and all the exterior glass of polished plate. Above the second floor the building will be in the form of the letter E, with two recessed light courts on the ocean front and no dark rooms in the entire building from basement to roof, and a majority of them will have a direct view of the ocean.

The roof will be of mission tile, and the entire structure will be in keeping with the grand and beautiful scale on which all Venice is built. It will cost about \$300,000. The interior will contain 300 rooms on the upper floors, each connected with a bath supplied with both hot and cold and salt and fresh water, and an additional feature will be a refrigerating plant from which will be piped to each room a liberal supply of ice water. The grand lobby in the center of the building will extend through two stories and be surrounded by a gallery. This hotel is to be ready for occupancy by December 1. The hotel now in use is the unique ship-hotel on the pier—named for the old Spanish galleon of Cabrillo and built to represent it. It rests on piles, as though anchored alongside the wharf. The fame of its fish dinners

has already gone abroad. The larger part of its three decks is given over to public and private dining rooms, and the guests are served by a crew of waiters dressed in sailor garb.

A breakwater 500 feet long with a ninety-foot base and a four-foot apex and costing \$125,000, is now in process of construction. This will provide Venice with a harbor where not only pleasure craft can find shelter but the ocean steamship drawing eighteen feet of water can also anchor with perfect safety. Upon the completion of this great sea wall its broad top will be turned into a promenade which will be brilliantly illuminated at night with colored lights, and will be reached by a pleasure pier built out the necessary 1200 feet from shore.

Another novel feature of the wonderful Venetian city will be its "Frolic Pier," plans for which are now in the hands of architects, and pile-drivers are preparing its foundations. It is to be located over the water just west of the pavilion and removed a short distance from the Windward Avenue pier and auditorium. An arched pier 400 feet long will lead to a vaudeville theater building accommodating 3000 people, and on either side of the pier will be clustered the collection of wholesome attractions that will make "the Frolic" relatively as popular as was the "Midway" at Chicago, the "Pike" at St. Louis or as the "Trail" at the Portland Exposition.

The mammoth auditorium, situated on the pleasure pier, with a seating capacity of more than 3000 people and its grand pipe organ, is one of the show places of Venice. It is arranged like a modern theater, with rich hangings, boxes and loges, and surrounded by a promenade twenty-five feet wide which can be thrown, by means of drop mashes, into the interior, thus providing space for 3000 more people. Beverly's Band has been engaged to give daily concerts here during the coming winter. Arend's Orchestra furnishes the music for the summer, giving open-air concerts at the bandstand on the shore of the lagoon into which the canals converge and facing which an open auditorium with seats rising in tiers has been built for the comfort of those who wish to listen to the music.

It is at evening when Venice is most bewitching. As the sun sinks into the sea and the stars gleam out in the darkening sky, myriad electric bulbs flash forth, and in an instant the whole city is aglow from the end of the pier to the borders of the canals away inland. Windward Avenue is arched with colored lights in prismatic

hues. From every mast and flagstaff of the full-rigged ship-hotel gleam the brilliant bulks outlining against the evening sky the perfect form of a graceful Spanish galleon; immense are lights glow at the auditorium entrance and smaller ones head the roofs and towers. Over all the beautiful city by the sea is shed a soft radiance that blends harmoniously with the Old World atmosphere that envelopes it, and one imagines he hears in the distance the chanting of Venetian gondoliers which will eventually be a reality.

WESTGATE.

Wooded Mesa Twist City and Sea Seeks to These Who Crave Country Homes.

Stretching from the Soldiers' Home to the sea on a high mesa backed by the mountains of the Santa Monica range, facing a valley and marine view unsurpassed for pastoral beauty, lies a mesa six or seven miles in length, dotted with cypresses and live oaks. Just west of the Soldiers' Home and three miles from Santa Monica lies Westgate—a tract of 200 acres which last March was subdivided into generous-sized lots and put on the market. Fully 60 per cent. of the tract has been sold to people who intend to build here country homes for themselves. Streets have been laid out and are being oiled and a number of fine residences are already under way. None of them to cost less than \$2000. Water has been distributed over the section and a double-track trolley line will connect Westgate with the city and Beach. The Los Angeles-Pacific Railway will extend its system through the place, establishing another loop similar to that now going through Ocean Park and nearer Santa Monica Canyon and the long wharf. With this extension Westgate will be but twelve minutes from the seashore, twelve minutes from Hollywood and but thirty-five minutes from Los Angeles, making it an ideal suburban residence town.

The climate and soil are almost identical with that of Hollywood and semitropical fruits, vegetables and flowers can be grown every day in the year. In this natural garden patch of the foothills. The view is superb, commanding a stretch of sea for many miles along the coast, the seashore towns, Los Angeles, and Catalina Island across the blue channel of the ocean. Back of the townsite of Westgate are platted half-acre and acre lots for villa homes. To those who enjoy country life in California no location can be more delightfully adapted to their wants than this mesa land 500 feet above sea level.

Surf scene, Santa Monica.

Beach and bathhouse, Ocean Park.

turrets rising in architectural beauty against the blue foreground of the sparkling sea. At night when the electric lights, which thickly bead its lofty towers, are ablaze, it looks like a fairy palace silhouetted against the sky.

There is a fine Country Clubhouse fashioned in the old southern style with wide verandas on three sides of the building; there is a \$12,000 hotel and casino with its many attractions; a big bandstand where there is usually music on a summer afternoon.

The assessed valuation in Ocean Park is about \$1,000,000 and is steadily increasing. It is now recognized as a city of the sixth class and is expanding rapidly. Back of the beach the land heretofore used for farming purposes is being cut up into tracts and put on the market in response to the heavy demand for homes near the sea. There are altogether at this writing 1200 homes in Ocean Park, and many others are building. The original dwellings are being constantly replaced with fine, modern homes of the most approved type, and many of them are occupied the year around by business men of Los Angeles, as Ocean Park is one of the nearest beaches to the city, lying less than fifteen miles from town, and reached in forty minutes by electric car.

The fishing banks located ten miles out at sea hold the world's record catch of 300 pounds taken by a single fisherman in the course of a few hours, and there is good fishing from the wharf, and frequently surf fish are landed from the beach. Ocean Park has miles of water pipe, sewer system, walks and telephone lines; is provided with gas and electricity and has a fine school building and half a dozen churches. Its percentage of growth is phenomenal, its population having more than doubled in the past two years, and yet it has not been marked by an unstable or feverish boom expansion, its development having been rather along the lines of substantial, steady growth. Its beaches are breezy, wide and clean.

GREAT FUTURE OF SAN PEDRO.

ONLY NATURAL DEEP HARBOR IN SOUTHERN CALIFORNIA.

"Nature Did Her Best, the Government's Done Her Best"—More Than Two Hundred Vessels Monthly on Her Entry List—Thousand Acres of Harborage.

It is a significant and curious fact that the great wharf which jigsaws out two miles into the sea from San Pedro outlines the form of a huge interrogation point. The answer to this mute but mammoth question mark is not hard to give. San Pedro—the Harbor City—guards the naval entrance to Southern California and the great Southwest. It is the Naples of our Italy. Located at the terminus of the great transcontinental railway lines, the only naturally protected deep-water harbor on 600 miles of coast, with the government expending \$3,000,000 to perfect, and half as many millions more to improve, and which when completed, will have the longest breakwater in the world, and be able to anchor the entire fleet of any nation and the largest vessels afloat—with all this in prospect, is anything too great commercially to prophesy concerning San Pedro?

Last month more than two hundred vessels, schooners and steamers, anchored in San Pedro Harbor. At this writing eight foreign vessels loaded with cement and other merchandise are headed for San Pedro. A force of 2000 men are at work today in her lumber yards and stevedoring on her docks,

and every month \$100,000 is paid out in wages. Her population has more than doubled in the past four years; her public buildings have kept pace with her increased importance.

San Pedro, while it is the port of entrance to Los Angeles, is in a far larger and more important sense the Pacific port of entrance for the United States, affording a shipping port for the exports of the great Southwest to the Orient, as well as a port of entry for the imports from China, Japan, Australia, Korea, Siberian Russia, the Philippines and East Indies.

Heretofore the Asiatic trade has naturally gone to San Francisco, but with the completion of the Nicaragua Canal, with three great transcontinental railroads terminating here, two of them crossing the continent at much lower elevation than the northern lines, and one of them connecting the Gulf of Mexico with the Pacific, commerce will naturally seek the nearest convenient port from which freight can reach the market. When the government work now in progress has been completed the inner harbor will embrace an area of 1000 acres, and include a water front approximating eleven miles for dockage with a channel wider in its narrowest part than that found in the deep channels of Glasgow, Scotland, New Orleans or Baltimore, and covering a larger area than that of the Liverpool docks which handle a tonnage approximating 20,000,000.

Possessed of such tremendous advantages over its commercial competitors, no point on the Pacific Coast is attracting as much attention from conservative capitalists and investors as is San Pedro.

The Times Prize Cook Book. All the recipes brought out by the recent prize contest, numbering nearly 100, and including over 75 Spanish dishes, original recipes of old-time California, have been published by The Times in book form. On sale at The Times Office for 25 cents. In special cloth cover, 50 cents. By mail 5 cents extra.

"PLAYGROUND OF THE KING."

PLAYA DEL REY A RIVAL-ELECT OF ITALY'S RESORTS.

Immense Sums Expended Toward Realization of Artistic Plans—Here Still-water Boating Has Its Home. Lagoon and Picturesque Winding Canals—Laid Out for Choice Homes.

In the chain of beach resorts running almost continuously from Redondo to Santa Monica Cañon, Playa del Rey—"the playground of the King"—occupies a central and conspicuous position, situated on and at the base of a bold bluff overlooking the sea and the curving coast from the Palisades on the north to Point Pirmin on the south. It lies in the elbow of the wide bay which brings it nine miles nearer to Los Angeles than its neighbor, Redondo. A well-known traveler said of this spot: "There is nothing in the south of France or Italy to compare with Playa del Rey as far as natural advantages go." The bluff which affords such a commanding and magnificent view does not rise abruptly from the ocean, but there lies a wide stretch of beach between it and the sea, the bluff forming a splendid background. Playa del Rey was purchased a few seasons ago by a company of capitalists whose design was to create here a high-class resort, and hundreds of thousands of dollars have been expended toward furthering these plans. The town is laid out around a natural artificial lagoon whose placid waters form a most charming inland lake separated from the ocean by a narrow neck of beach.

At the head of the lagoon an aquatic amphitheater, capable of seating 5000 people, has been built, the center of which is relieved by a large, semi-circular facade facing the lagoon. An immense auditorium of Japanese architecture has been erected, looking toward the sea on the neck of land that lies between the lagoon and the ocean. The lagoon is being banked with substantial retaining walls, and picturesque bridges are being built across it leading from shore to shore, while the art of the landscape gardener will create on its banks charming effects in grass and flowers. A canal is now being dredged connecting this lagoon with Venice, two miles down the coast. The lots at Playa del Rey are of generous size, and high-class building restrictions prevail. Contracts have been signed for the erection of a score or more handsome residences this season, costing from \$2000 to \$5000 each. During the last two months the place has been unusually active, more than \$250,000 worth of property having been sold, many of the first purchasers realizing on their holdings by a resale, but the majority of the buyers are bona fide home builders. Prominent Los Angeles men who have built homes for themselves at Playa del Rey include Frank A. Garbutt, Oliver Morosco, W. W. Burton, A. W. Eager and George W. Signor.

This season's building operations have not been confined to residences alone, three large two-story buildings having been contracted for in the heart of what will be the business section of the town. Last week a new subdivi-

SEASHORE CITIES IN FIGHT FOR LAND.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

SAN PEDRO, July 19.—The rivalry between San Pedro and Long Beach for the annexation of East San Pedro and a part of Terminal Island is becoming spirited. Both cities have called an election for annexation, Long Beach for August 16, and San Pedro for August 30.

At last night's session of the Board of City Trustees City Attorney Karr was instructed to bring a suit in the Superior Court to enjoin the city of Long Beach from holding an election on August 16, on the ground that the petition presented on July 11, by the

electors to the Board of Trustees of San Pedro confers jurisdiction on this city. It is stated that a taxpayer of the district to be annexed will also file an injunction suit against Long Beach upon similar grounds, and that still a third suit will be brought to review the proceedings of the Board of Trustees of Long Beach and question their legality.

San Pedro has long looked upon East San Pedro and the territory lying on the east side of the inner harbor as its own and will not relinquish it without a fierce struggle.

WHO'S TO PAY THE AUDITORS?

LONG BEACH TRUSTEES DRIFT TOWARD IMBROGLIO.

Mayor Declares That the Men Employed to Examine the Books of the City Marshal Were Not Hired to Go About Town Doing Detective Work. Passing of a Veteran.

(SPECIAL CORRESPONDENCE OF THE TIMES.) LONG BEACH, July 19.—The City Trustees who have hitherto kept reasonably free from officially becoming entangled in the Folsom-Conklin fight in police matters clashed yesterday and unless saner thoughts prevail will probably be drawn into the imbroglio. The trouble arose over the acceptance of the report of the experts secured to audit the city books. The Finance and Auditing Committees were authorized to have an examination of the books made and they secured Messrs. Wills and Sylvanus, who came here and worked under the direction of Chairman Cate.

When the experts' bill for \$422.50 was presented, Mayor Eno refused to pay it on the ground that the experts were hired to audit the books and not to chase around town after slips of paper, playing detective instead of staying in the City Hall and auditing the books, and besides he was not satisfied with the report. Chairman Cate said that he had notified the board of every step taken and the experts did as he directed and it was necessary to hunt up licenses not shown on the books.

Then the Mayor took another tack and raised the point that the bill was not due, as the report had never been filed and was in the hands of the Finance Committee who had put the marshal and his friends to inconvenience in examining them. This Cate denied, but in order to set this point at naught offered the report for acceptance and filing, but Eno voted no and followed his leader and voted also in the negative. Messrs. Cate and Oakford voted yes and the motion to accept was lost.

Trustee Campbell, the fifth member of the board, who would have voted yes as he was one of the committee, was absent on business. After the Trustees adjourned, instead of chatting and jollifying as usual, the two factions flocked off by themselves and the atmosphere of the Council chamber was decidedly frigid.

FOR GREATER CHAUTAUQUA.

This city is to have a greater Chautauqua. With this idea in view, Dr. F. W. Gussakoff was today elected to the directorate of the organization. During the coming winter he will work on plans for its enlargement. Next summer he will attend the full course and have general supervision of the Chautauqua. This was decided at a meeting of the association, held this afternoon to complete the board of directors. Five old members were re-elected and two new ones were chosen to fill vacancies occasioned by the resignation of Miss Harriet Aldin and Frank Catter. The old members re-elected are: P. E. Hatch, B. R. Baumgardt, Malcolm McLeod, Rev. C. P. Dorland and Stephen Townsend. After this was accomplished Mr. Hatch announced the broadening programme, and as there were two vacancies, proposed the names of Dr. F. W. Gussakoff and Rev. Isaac Jewell, who were unanimously chosen. The directors will meet in January and elect officers.

Chautauqua classes this year have been better attended and more interest has been shown than for several years. In the Bible class, Rev. A. G. Fessenden of Los Angeles spoke today on the subject "How Things Work Together for Good." During the Child Study hour, Dr. Crosswell told of the George Junior Republic from observations gained during a summer vacation spent as a voluntary helper at this republic for boys and girls. In the current and classic literature department, the subject was "Old Ballads and half a dozen of these were sung by Miss Jessica Laurence of Los Angeles. In the music department, John Douglas Walker lectured on the "Rise and Development of Music." In the current literature class, Prof. Everett Scott lectured on the "Russian Revolution," in which he expressed the opinion that the Czar will not be deposed as he thinks the very weakness of Nicholas just now is his greatest protection.

The prelude this afternoon and evening were in charge of the Long Beach Conservatory of Art and Music. In the afternoon, Miss Pearl Herndon gave "an hour with Riley and other poets." At night, Prof. Fred H. Beala lectured on "Wireless Telegraphy," every step being demonstrated by the use of apparatus. Thursday is "Recognition Day" of Chautauqua, at which time diplomas for four graduates will be issued. The programme is in charge of Mrs. Greenleaf and is to begin at 1:30 p.m. Music and responses will furnish a part of the afternoon exercises, all of which will precede a lecture by Prof. George F. Gates of Pomona College, on "The Modern Scientists' Universe." The night programme includes a contralto solo by Nell Lockwood, and a reading by Miss Elsie Behmyer, followed by a lecture on "King Lear," by Dr. William Quayle of Chicago. The Bible class in the morning will

be in charge of Rev. Baker Lee of Los Angeles; Dr. Crosswell will talk on "Dr. Hodge, the Father of the New Nature Study." Mrs. Greenleaf will tell of the discovery of Portland, and Prof. Scott will lecture on "Hungary and Her Neighbors."

COOK'S SON LEFT BEHIND.

Joseph Garfield, aged 13, of San Francisco, small, but sturdy, applied to Marshal Conklin for assistance. His father is cook on the schooner, Brunswick, running between San Pedro and Fort Bragg and it being vacation, the boy was making the round-trip on the boat. While in port the lad was on shore, but misunderstood the sailing time, and the boat left him behind. He had only 30 cents, and buying a nickel's worth of buns, he spent the balance to come to Long Beach to look for work. His efforts were futile, however, and without breakfast or dinner, he hustled until finally he was directed to the Marshal, who fed him and then telegraphed the boy's aunt and sister in Chico for funds. The lad is a bright little fellow and seems to concern himself more about his father's worry than his own hungry condition.

VETERAN MORGAN PASSES.

Rev. Alfred White Morgan died Monday night of hemorrhage of the brain, and paralysis. Rev. Morgan was a native of Indiana and was 63 years of age. He was educated for the ministry at Franklin College, but was never a regular pastor, his life being devoted largely to inventions, a number of which are patented, the most important being a well-boring machine, and an automatic trolley, the latter only recently completed, and the Morgan Trolley Co., organized, of which he was president. Mr. Morgan was twice married, the second time in this city last November to Miss Alice Wallwork, assistant pastor of the Baptist Church, and a prominent Sunday-school worker of the State society. His widow and four children survive. Thomas Morgan of Dutch Flats, Raymond Morgan of this city, Miss Stella Morgan of Los Angeles, and Mrs. Oliver Bruce Ambury of Philadelphia.

Rev. Morgan was a veteran of the Civil War, and organized Co. A of the Sixteenth Indiana Infantry. In Street's raid he was captured and suffered untold hardships in Libby Prison, where he was starved into unconsciousness. The funeral will take place Thursday at 2 o'clock p.m. at the First Baptist Church, Rev. J. Lewis Smith in charge.

PIZMO'S PERFECT BEACH. SEVEN MILES LONG, HARD AS A BALLROOM FLOOR. Spot Near Obispo, Beloved Old Franciscan Friars, Beautiful Fine Resort—Most Famed on the Southland's Coast. Between Santa Barbara and Santa Monica, a new resort, El Pizmo, on the main line of the Southern Railway, twelve miles south of Obispo. For thirty years Kern, Kings, Tulare and Santa In counties have been here in great numbers every summer. It was the favorite resort of Indians many moons ago, and here, on the hard white sands of Pizmo Beach, that the Franciscans loved to linger in their quest to sail from the missions up the coast. Lying just back of the beach is some of the richest soil in all California, noted for its dairy, fruit, vegetable, seed and flower productions—a country of rivers, never failing streams.

Dana Burks'— Venice Annex Number Two

Choicest Residence Section in Venice
THE VERY BEST OPPORTUNITY IN BEACH PROPERTY

Adjoins Venice of America

Fully Improved
\$150 Down—Balance
6-12-18 Months

Lots Only \$600.00

Lowest Prices---Best Terms

Safe--
Sound--Sure
Profits

Venice Annex No. 2 is only 2 short blocks from Venice of America, is about 30 feet higher than Venice, and commands a grand view of mountain, valley and the picturesque gardens and canals of Venice.

All of the advantages of Venice can be enjoyed by the residents of Annex No. 2.

It is the main thoroughfare through Venice to Windward avenue, bordering Annex No. 2.

The rural culture of Annex No. 2 will be of a high character. Ornamental trees (one for each lot), palms, shrubs and flowers will be used in abundance, and same will be maintained by the owner for one year.

Isn't it better to buy where things ARE than where they are promised?

Have you been to Venice? Don't you agree that it is the greatest resort? Ocean Park and Venice will be greater as a winter than as a summer resort.

Any property at present prices can be improved and will net the owner from 12 to 18 per cent. Why not invest where profits are sure, prices are stable, and risk eliminated? Did you ever hear of anyone who bought property here who did not make money?

Venice Annex No. 2 Will Make You Money

Adjoining lots in Venice which sold a few months ago for \$600 are now worth \$1600 to \$2600. The lots we offer now share all of the advantages afforded by the canals, gardens and other attractions of Venice.

Tract Half Sold—Going Fast—See Us Soon

For Information, Maps, Prices, Etc. See Any Agent at Venice or Ocean Park, or

JAMES R. WAGNER, General Selling Agent

OFFICE OCEAN FRONT, OPPOSITE VENICE PAVILION

The roads and walks in Annex No. 2 are to be of the same character as those of Venice of America and Annex No. 1, namely, Disintegrated granite (the finest park walks) and in addition all roads will be treated with heated oil and with the latest tamping process.

The owner has made arrangements with Mr. Robert Armstrong, the supervising Landscape Gardener of Venice of America, to take charge in a like capacity of Annex No. 2.

Water mains are contracted for and will be put in at once.

Improvements and maintenance for one year are without expense to the purchaser.

Lot owners will have all the advantages of the Venice Improvement Association.

El Pismo beach.

Grande—a stream of pure crystal-clear water that bounds the landward side of this new resort.

Shady cañons with running streams are within walking distance and La Grande is but six miles from the famous San Luis Hot Springs. The pavilion is to be completed within sixty days and a tent city will accommodate visitors this season, while the permanent improvements are going forward. A temporary hotel has also been erected. A 150-foot boulevard on the hard sandy beach, which extends in unbroken line for a distance of twenty miles, is one of the most delightful attractions of this resort.

MANHATTAN BEACH.

Ocean Frontage Doubled in Three Years, and Many Improvements Are Under Way.

Manhattan Beach is three miles north of Redondo. It was laid out three years ago, the original tract being a half-mile strip of beach. With recent additions the frontage on the ocean has been doubled and nearly every lot facing the beach has been sold—many of them being re-sold. A handsome pavilion has just been completed and a \$10,000 plunge is to be built in Peck's Addition.

The site of Manhattan lies on a bluff with a gentle incline leading down a hundred yards or so to the water's edge. The beach curves in a crescent leaving at low tide a wide stretch of sand, hard and smooth, which makes a splendid driveway.

The Santa Fe road passes through the tract and there are two stations, one at Manhattan and the other at North Manhattan. The electric line passes along the bluff just back of the strand, giving a fifteen-minute service to contiguous beaches and to Los Angeles. There are building restrictions and no liquor is allowed on the grounds.

Many well-known business men own property at Manhattan, among them being Dr. John R. Haynes, Charles

Cassata Davis, Dr. H. D. Requa, Dr. E. G. Howard, Mrs. Juana Larronde, R. H. Dyer, and H. M. Eichelberger, who owns an entire block.

CATALINA ISLAND.

CAPT. BANNING COACHING.

AVAILON, July 18.—Capt. Banning had his fine coach team of four horses brought over yesterday, and with members of the family and that of George S. Patton, drove up to Middle Ranch this afternoon.

Mrs. Uldric Marchand was hostess at a lunch party yesterday afternoon which visited Camp Whittier, the old hermit's home at White's Landing, and Arch Rock. Her guests were Dr. and Mrs. F. J. Nutting, Mr. and Mrs. E. J. Dred, Mrs. and Miss Van Cise and D. R. McDonald.

George S. Patton, Jr., with Claude Wickman, captured a big black sea bass this morning of 28 pounds weight. He will have a choice fish story to tell his chums when he returns to his studies at Annapolis.

Mrs. E. H. Edwards and daughter, Miss Glenn, and Mrs. Frank McDonald and son, Irving, are in camp on Clarisee avenue. Mrs. Edna Boyd of San Francisco, is with them at present as their guest.

Peter Bachloup of San Francisco and Leon F. Douglass of Philadelphia are at the Metropole. Capt. Walker, skipper of the "Pilgrim, Jr.," reported a school of tuna near by yesterday, and the gentlemen named are after them hot-foot today.

The Meteor carried about seventy-five excursionists to the barbecue at the Lethmus yesterday.

T. J. Rabboth of Redlands came over today to have a try at the tuna with a new kind of tackle. When here a few weeks ago he took a small one.

VENICE.

MAN AND THE RIB.

VENICE, July 18.—Today's session of the Assembly was one of more than

ordinary interest. Mrs. Charlotte Gilman, grand niece of Henry Ward Beecher and Harriet Beecher Stowe and great-granddaughter of Lyman Beecher, who spoke last night on "Man," this morning told of "Woman."

She treated of the relation of woman to humanity, to man and her change in the present. In her talk on "Man" in the social philosophical discourse she dwelt upon the nature of humanity, of work, of man and the androcentric part. Tomorrow morning her subject will be "The Child," and she promises to tell what we have given the child, should give, and what his place in the future.

Rev. R. Fay Mills spoke this morning briefly on "Why Does the World Exist?" This evening William E. Smythe delivered an address on "The Taming of Monopoly."

Tomorrow night the Auditorium will be the scene of an ardent debate between Revs. Ng Poon Chew and William Rader, both of San Francisco. The former is the editor of "Chung Tai Yat Po," the San Francisco Chinese daily. The question to be debated is a resolution to the effect that Chinese immigration should be restricted.

Donnell's sextette from "Lucia" will be rendered tomorrow evening by Arend's Venice Band.

AMONG THE SAND DUNES.

The deep sea power launch Dolores has been added to the fleet at anchor off the Windward pier. As soon as the bulkhead breaks the force of the waves there will be many yachts, launches and small boats here. The gondolas have arrived and are being put into commission on the lagoon.

The summer school classes are opening. The nature school is in charge of Miss Lottia Corrella and the modern language school is presided over by Mrs. Josephine Phelps.

N. O. Nelson, the millionaire profit-sharing manufacturer of Leclair, Mo., is spending the week on the sand. He is to speak at the Assembly Friday on "Tainted Money."

SANTA MONICA.

PROPERTY IN DEMAND.

SANTA MONICA, July 18.—There is more activity in local real estate circles at this time than there has been for many a day. W. T. Gilles & Co. report the sale of residence property during the past fortnight to the aggregate of \$114,740. As they come forward with names, addresses and blocks and lots and the price paid, there is no doubting the evidence of the revival of interest in real estate attending the development and expansion of Santa Monica.

The county road leading up the beach from the long wharf for three miles is receiving a coating of oil. Third street, north of Oregon avenue, is also being oiled.

The Episcopal Sunday-school will hold its annual picnic tomorrow to Topanga Cañon. At the same time the Presbyterian classes will have a picnic in Temescal Cañon.

Mr. and Mrs. George W. Throssel have departed on a visit to Ocean Park and the Lewis and Clark Exposition.

Mrs. R. T. Tanner is the guest of Oakland friends. Friday Mr. Tanner will meet her, and together they will proceed to Portland and Seattle for a three weeks' outing.

Miss Alice Hearty is here from Santa Ana for the summer.

Mrs. Rhoder is here from San Pedro for a few days.

Mrs. J. G. Schurs of San Bernardino is passing a few weeks on the beach. Mr. and Mrs. Charles Le Bas are at Seven Oaks, near San Bernardino, for an outing of a few weeks.

Charles Wunderle has returned from Denver and will again make the beach his home.

Mrs. J. W. Day, Riverside; J. P. Simpson, New York; Mrs. J. Rowan, H. T. Danforth, Los Angeles; L. L. Durkee, Alameda; Mrs. D. Willard, Riverside, are at the Arcadia.

MURINE Eye Remedy Cures Eyes Making Weak Eyes Strong, Soothes Eye Pain, Doesn't Hurt.

Oceano Beach.

EL PISMO'S PERFECT BEACH.

THREE MILES LONG, HARD AS A BALLROOM FLOOR.

Just near Obispo, Beloved Old Franciscan Friars, Be-
lue Beach—Most Famous Beach on the Southland's Coast.

Between Santa Barbara and San Luis Obispo, recently sprung into life a new resort, El Pismo Beach, twelve miles south of San Diego. For thirty years the Kern, Kings, Tulare and Santa Barbara counties have been in great numbers, every summer, to the favorite resort on the hard white sands of El Pismo Beach, that the French have named "the beach."

For many moons ago, and from the missions up to the coast, lying just back of the main line of the Southern Pacific Railroad, noted for its fruit, vegetable, seed and flower raising, a country of never failing streams,

lofty mountain peaks and beautiful cañons.

Two miles distant is the famous Arroyo Grande Valley, which, in the competition for the largest vegetables inaugurated by eastern seed dealers, took all the prizes, from onions to watermelons—till barred out from the competition.

On level sea sand smooth and hard as a ballroom floor and tipped toward the ocean in a gentle slope, where the surf sweeps free and clean, El Pismo Beach extends for a distance of sixteen miles, broad enough for a dozen trains to race down it abreast. Here it is proposed to have an ideal speedway for automobiles. A fine garage has been established, and races will be inaugurated, the splendid course offering unparalleled opportunity for getting the record in speed.

The El Pismo Company acquired the property some time ago, but it was not till last March that improvements were begun. A fine hotel—the El Pismo Inn—has been built, augmented by numerous cottages placed in an attractive way around the main building. The cuisine of this hotel is unexcelled, special emphasis being laid upon the clam chowder, clam steams and other forms of sea food served, for El Pismo Beach is the greatest beach on the Coast, more than a ton a day being shipped to Los Angeles and San Francisco.

An electric light plant has been installed, a large bathing pavilion built and a fine water system under heavy pressure carries water throughout the town. A tent city has been put up and is already crowded to overflowing, a large number of additional tents hav-

ing been sent up from Los Angeles last week to accommodate throngs of campers. These tents are canvas palaces, in their way, with four rooms, and are completely furnished with everything necessary to comfort—linen and towels laundered at the expense of the company.

Special excursion rates to El Pismo are obtainable, many taking advantage of them. The sale of intoxicating liquors is not permitted, and the place is designed as a resting place for families who want a high-class resort at moderate expense. The price of lots is exceedingly reasonable and several model cottages have been built, with others under way.

LA GRANDE BEACH.

Sea and Mountain-stream Fishing Rare Combination at San Luis Obispo County Resort.

Lying in the bend of the San Luis Obispo Bay, in a position precisely similar to Long Beach, with Port Harford in the position corresponding to San Pedro, is La Grande Beach at Oceano station on the Coast Line of the Southern Pacific Railroad.

This new resort has been on the market little more than a month and forty teams are now busy grading the tract and already a pavilion is in process of erection which will cost \$20,000. The tract consists of 7000 lots, has an ocean frontage of 150 feet and it is possible to land surf fish from the sea and by taking a ten minutes' walk to the rear of the tract cast the bait for mountain trout in the Arroyo

SANTA MONICA ALL THE YEAR.

Famous City by the Sea a
Place of Permanence.

Fine Public Buildings; a
Well-to-Do People.

Where Health and Business
Naturally Combine.

Stretching in a continuous line and so nearly overlapping each other that it is hard to tell where one resort begins and the other ends, Santa Monica, Ocean Park and Venice lie along the curve of coast outlining Santa Monica Bay. Indeed, so closely allied are the two first named resorts that it requires sign boards to distinguish where the enterprise of Santa Monica ends and that of Ocean Park city begins.

The permanent population of Santa Monica is about 6000 to 7000, and it ranks as a city of the fifth class. The assessed valuation of the city is about \$3,000,000. Its schools, churches, public library and many solid municipal improvements stamp it as a permanent, abiding city—not merely a summer resort. Situated on a bluff about 100 feet above the sea floor, the brisk breezes of the ocean sweep over it with the fresh, life-giving breath of the salt sea, its chief claim to popularity being that it is beyond question the most famous summer and winter resort and all-the-year-round dwelling place of any coast town in this vicinity, a place, where hundreds of cultured and wealthy families have built a class of homes that is a credit to any community.

Many business men of Los Angeles reside in Santa Monica, the rapid and frequent trolley connection making it an easy matter to come and go. Each year sees a tendency to forget the "season" as connected with Santa Monica, and a more substantial and desirable class of people than the transient tourist locate there permanently. The wealthy tourist of this summer who spends some time at Santa Monica is likely to become a permanent resident there next year. The place is famous for the large number of beautiful private homes, many of them surrounded by extensive grounds, and for its wealth of trees and flowers. There are nine church organizations, representing all the leading denominations, each with its house of worship; four grammar schools and a high school wherein to educate its 1500 pupils. There is a fine public library which is the pride of the place—a gift from Andrew Carnegie. There are three banks, one a national institution with a paid-up capital of \$25,000. One of the finest public structures in the city is the new City Hall, erected at a cost of \$25,000. The commodious bath-houses with plunge, amusement pavilions and above all, the splendid surf that rolls in white-capped breakers up the wide, smooth beach, combine to make the place an attractive for recreation as it is alluring to solid business enterprises.

The magnificent building sites on the gently sloping hills rising from the clean, white beach have been crowned with handsome homes surrounded by trees and flowers, which give a charming background to the beach town lying on the bluff below. Several floral companies have located their gardens in the outskirts, and hundreds of thousands of the choicest carnations, roses, jonquils, lilies, ferns and violets that find their way to Los Angeles florists are grown at Santa Monica. Scores of men, women and children find profitable occupation in the cultivation, picking and shipping of these flowers.

OCEANO PARK.

BEACH NUTS AND PERSONAL. OCEANO PARK, July 13.—A Long Beach business college is getting ready to open a branch in the Masonic building on Marine street.

Mrs. A. L. Dodge is on the beach, from San Francisco for the summer season.

J. Condon is a seaside visitor from Memphis, Tenn.

R. O. Rouzan, from Bisbee, Ariz., is passing the summer on the shore.

A. P. Denish is here from Marshalltown, Iowa.
Mrs. Edward Devoy of St. Louis, Mo., is visiting friends on the sand.
C. B. Husted and family have come here from Los Angeles for the summer.
Mrs. Josephine Phipps, teacher of modern languages at the Venice Assembly, entertained a hundred of the little children of the beach at the Club House this afternoon. Music, singing, recitations and dancing were the order.
Mrs. L. Freed and family of Salt Lake City are on Joy street for the season.
M. A. Swartz and family are beach visitors from Los Angeles.

TERMINAL AND BRIGHTON BEACH.

HOME OF SOUTH COAST YACHT CLUB A COSY SPOT.

Here Men of Means Have Built for Themselves and Their Families Commodious Cottages Close to the Scudding Surf — Electric-light Boardwalk a Brilliant Promenade.

The shore of Terminal Island is one of the very few in Southern California that has an east front, thus escaping the glare of the afternoon sun. It is also favored by having the ocean on one side and the still waters of San Pedro Bay on the other. Terminal Island and Brighton have been built up mainly by men of wealth and station who have erected here commodious and picturesque cottages along the shore so close to the sea that at high tide the waters sweep to their very doors. A substantial bulk head has been built to check the too near approach of Old Ocean in her boisterous moods, and a wide boardwalk extends the entire length of the beach from the Brighton Hotel to the pleasure wharf at Terminal.

Electric lights are strung along the line of this promenade, making it a brilliantly illuminated thoroughfare in the evening. Terminal Island and Brighton are the grand rallying points for yachts and pleasure craft of every description, for this is the home of the South Coast Yacht Club, an organization of wealthy men who own some of the finest and fastest yachts on the Pacific Coast. There is a commodious clubhouse, and the Brighton Beach Hotel is a favorite resort for sportsmen who find their recreation riding out to sea in a trim yacht before a stiff breeze.

Close by Terminal Island are many places of historical interest—Dead Man's Island, The Chills, the government lighthouse and Abalone Rocks, all of which lend additional charm to this resort.

OCEANO BEACH.

Where Trout Fishing, Boating and Safe Surf Bathing Combine to Lure the Cottager.

The suggestive name of Oceano brings with it a whiff of the salt sea air. This ambitious resort has chosen for its motto, "Watch Oceano Grow." It is located about seven miles south of Port Harford and eleven miles from San Luis Obispo, and claims the finest beach on the coast—a strand 300 feet wide and eighteen miles long of clear, white, fine, hard sand that clicks under the horses' hoofs like a smooth paved street of asphalt. The Oceano Beach Syndicate acquired the property and put it on the market two weeks ago, selling \$20,000 worth of lots since that time at prices within the reach of the man of modest means. The plans are now in the hands of the architect for a pavilion and club-house to be erected by the company, and for a pleasure pier and bath-house. Ten per cent. of the purchase price of all sales is held in trust by the Los Angeles Merchants' Trust Company as a guaranty of improvements to be made by the Oceano Company. The broad beach boulevard will be used as an automobile race course; it is wide enough for fifty touring cars to run abreast if need be.

One of the chief attractions of Oceano is the natural lake covering from fifteen to twenty acres and fed by two clear, sparkling mountain streams which run through the Oceano property and are stocked with trout. Boating and bathing in the lake will be one of the choice sports here. On account of the waters of the San Luis Obispo Bay, which temper the boisterous waves of the ocean, there is no undertow to threaten the safety in beach

bathing, and children can play in the surf without danger. Many prominent Los Angeles people are building for themselves homes at Oceano, among them, E. Avery McCarthy, George E. Hart, H. D. Lombard and B. L. Harding.

A Japanese Bank.

"Early in July the first Japanese bank ever conducted in the United States will be opened at Seattle," said A. F. Foster of Seattle. "It will have a capital of about \$50,000 and is located in a building built especially for it in the business section of Seattle. The opening, it is expected, will be the occasion of a joint Japanese-American celebration in which leading business men of the city and prominent members of the Japanese colony will participate."

"In the enterprise about twenty-five of the leading Japanese business and

professional men of Seattle are identified with five or six Americans. While the advantages of such an establishment have long been apparent to the Japanese residents of the city it was not until early this year that the project began to shape up in definite form.

"It is expected that the bank will transact a great deal of the business arising from the new commercial relations with the Orient."—[Milwaukee Sentinel.]

TEXAS TEMPERANCE WORKER.

This afternoon at 2 o'clock the Los Angeles Woman's Christian Temperance Union will meet at the First Methodist Church, Sixth and Hill streets, and will be addressed by Miss Emma V. Newcom of El Paso, Tex., on the subject, "An Investment in the Loyal Temperance Legion, and Temperance Work."

The Time To Buy At San Pedro Is TODAY

The millions of dollars expended by the United States Government, Henry E. Huntington and the Southern Pacific at San Pedro practically guarantee the success of this port that is now attracting the commercial inter-

ests of the country. The "tide which taken at its flood, leads on to fortune," is now rolling into San Pedro. Those who buy NOW will realize heavily on their investments.

"Buy Every Foot of San Pedro Harbor Front, No Matter What the Price. The Near Future Will See the Dollars Invested Grow Into a Fortune."
Secretary Shaw.

The location of this water frontage is ideal for a warehouse site. There is bound to be a heavy demand for factory and warehouse locations in the immediate future.

That

OCEAN PARK, VENICE and the various tracts in the immediate vicinity, offer extraordinary opportunities for safe and judicious investment, is proven by the many substantial and discerning people who have purchased property along this beautiful chain of resorts. The boom element is now, and has been, conspicuously absent in this section. The steady and vigorous activity during the past years has been caused from the enormous expenditures for high class improvements.

Comparatively few sand lots are left between Ocean Park and Venice Piers. This territory is now well populated with a very desirable class of people. The heavy demand for high class beach property makes the remaining sand lots in this district a conservative investment at today's prices.

Venice Canal lots with their beautiful and artistic environment and because of their immediate proximity to the great Venice attractions, represent the height of safe investment. The Silver Strand overlooking the lagoons and Ocean, is destined to become an attractive place of residence.

Cheaper and better transportation facilities for the immediate future are assured. Every man, woman and child who has invested a dollar in Ocean Park during the past four years, has made money. The records prove it. Remember that Ocean Park is the nearest beach to Los Angeles.

heard that the Syrian had killed him-
self. He has been arrested, as well as
the girl, and they are being held for
examination. A Coroner's jury re-
jected the suicide story and decided
that death "was at the hands of per-
sons unknown to the jury." Shamon
had saved \$700 and was preparing to
send to the Lebanon Mountains, in
Syria, for his wife, from whom he had
been separated for many years.

TERRITORIAL NEWS BRIEFS.

Jose Lewis, a Papago Indian, is be-
ing held in prison in Tucson, charged
with the murder of another Indian,
Jose Anton, at Covered Wells, west
of Tucson on July 2. The only wit-
ness was Anton's squaw, who tells
that Lewis calmly walked into her
tents and shot down the buck without
exchange of words and without resis-
tance.

Austin Morris, a Morenci deputy
sheriff, had difficulty in arresting a
couple of drunken Mexicans, who
showed fight. When the smoke of bat-
tle cleared away, one of the peace dis-
turbers was dead and the other was
shackled in the tunnel jail. A Coroner's
jury decided that the officer had done
only his duty.

"Red" Lopez, the Mexican accused
of murdering the Chinaman he had
been hired to pilot across the bound-
ary into the United States, has been
seen in one of the border American
towns. He was arrested at Proterusa,
but was released by the comisario, who
in turn, is now in jail, accused by the
State authorities with having been an
accomplice in the murder.

Ployd G. Utman, the Californian who
dug his way out of the Douglas jail,
has been returned by Mexican officers
and will be tried for the offense for
which he was committed, the shooting
of his mistress in the arm.

Santa Cruz county officers are in-
vestigating what seems to have been
case of attempted murder at the camp
of the Three Metals Mining Company,
near the Mowry mines. A quantity of
dynamite was exploded mysteriously
in the near vicinity of George D.
Gross, the mine superintendent, whose
death is supposed to have been sought
by disaffected workmen.

While working in an old mine, a
miner, Antonio Carrasco, was caught
by cave-in and killed. His body be-
ing buried under hundreds of tons of
rock, Carrasco saved his working mate,
below him, by shouting to him to flee,
but himself could not gain the shelter
of the drift before the rock was upon
him. The Longfellow is little worked at
present, though for twenty years the
best producer of all the Arizona Copper
Company's properties. Carrasco was
digging tale when caught.

At Naco, Sonora, last Monday,
an engineer named Lackey was
stabbed, possibly fatally, by an old
carpenter, just released from jail. The
carpenter had no grudge against
Lackey, but had announced that he
felt bad and would "do" somebody be-
fore night.

At Tombstone, a Chinese merchant,
Y. Sang, has charged Charles W.
Blackburn and Charles Granville John-
son with blackmail, in extorting from
him cash and notes to the amount of
\$4000, under threats of his arrest for
an alleged attempt to assault Black-
burn's twelve-year-old daughter. It is
alleged that the two Americans led
the Chinaman into a trap for pur-
poses of gain to themselves. Both
Chinaman and girl testified in court
that they were acquainted, but nothing
more. Johnson testified that
Sang offered to settle the case out of
court by paying \$500 cash and \$500 a
year till the girl became of age, the
money to be used in her schooling. A
document to this effect was drawn up
and signed and has been submitted
in evidence.

Tucson's municipal boundaries have
been enlarged, a considerable area of
residential property having been added
through an election held last Tuesday.
There is a report that the Southern
Pacific is to run a direct passenger
train through from Tucson to Phoenix,
giving double service over the Mari-
copa and Phoenix road, for the better
accommodation of main-line business.
Denial has been made of the story
that the Golden State Limited is to be
transferred between El Paso and Den-
ver to the southwestern track.

One of the highest bridges on the
Arizona and New Mexico road, be-
tween Guthrie and Clifton, was de-
stroyed by fire Saturday. Passengers
have been transferred around the gap,
but freight is piled up at Lordsburg.
Something of a washout was caused
a couple of days ago by rain to the
roadbed of the New Mexico and Ari-
zona Railroad, thirty miles south of
Bend.

Inimitable "Bob" Burdette.
Again readers of The Times may enjoy
the quaint humor in the writings of this
famous newspaper paragrapher and greater
New Yorker on an extended European
tour. Mr. Burdette will write one of his
inimitable letters for The Times each Sunday
during his journey.

Bank Stock for Sale
AT ONLY \$5 PER SHARE
Plan to Secure 1000 Stockholders
No One Allowed to Purchase
More Than \$500 of Stock.
The people of Los Angeles can now
buy bank stock at only \$5 per share.
No one will be allowed to purchase
more than \$500 of stock. Capital is
to be increased to \$500,000, making
bank of a thousand small stockhold-
ers, thereby becoming the people's
bank of Los Angeles. The Consoli-
dated Bank of Los Angeles has de-
cided to place its stock with the peo-
ple, believing that in securing a thou-
sand stockholders it will secure a
thousand depositors at the same time,
investors can purchase such stock
with absolute safety as to perfect se-
curity, and realize a handsome profit
therefrom, as has been done by the
owners of stock in the various other
banks of Los Angeles. This is the
only opportunity ever offered the gen-
eral public to buy stock in a Los An-
geles bank at \$5 per share. We would
rather have 5000 stockholders of \$100
as the more stockholders there are
each than 1000 of \$500 each. We want
the greatest number of stockholders,
the stronger the bank. All stock fully
paid up at Five Dollars per share.
Purchasers can buy from 1 to 100
shares at \$5 per share, but no one can
buy more than \$500 of stock. Sub-
scription books just open. Purchas-
ers can subscribe for 100 shares and
pay for the same in weekly payments
of Five Dollars, and receive one share
of paid-up stock as each \$5 payment
is made. We want the people to be-
come the stockholders in the people's
bank of Los Angeles. Officers: Wil-
liam H. Carlson (Ex-Mayor of the City
of San Diego); President; J. G. Estu-
dillo (Ex-State Treasurer of California);
First Vice-President; F. H. Dis-
on (Ex-State Harbor Commissioner of
California); Second Vice-President; A.
W. Carver, Cashier. Call or write for
further information. Pamphlets, etc.,
mailed free on application. CONSOL-
IDATED BANK, 124 South Broadway,
(Ground Floor Chamber of Com-
merce Building.) Los Angeles, Cal.

Highly Attractive Beach
Property in the Lagoon Subdivision
Lots in the lagoon subdivision (recently placed on sale)
have been selling at an almost phenomenal rate. This
property is among the most desirable for seaside residence
purposes on the Coast. You'll have to "step lively" if you
want one of these lots. High class improvements will be
added here.

The Great Bridge Over the Lagoon
Another dash of the artistic will be added to beautiful Play Del Rey upon the completion
of the magnificent bridge which will extend over the lagoon. The above sketch shows the
outlines in detail of this beautiful structure. It will be observed that the bridge resembles
those which extend over the canals of Venice, Italy. Michele De Palo, the famous civil
engineer and architect is the designer and builder of this interesting study in architecture.
Mr. De Palo built the famous Water Tower of the City of Mexico. The entire bridge will
be built of reinforced concrete. It will be 16 feet wide and the main span will be 100 feet in
length. Ornamental lamps crowned with clusters of incandescent electric lights will bril-
liantly illuminate this attractive lagoon highway. It will be 30 feet high, thus permitting the
passage of yachts under it. Construction work will begin immediately.

Another Big Feature.
AN INCLINE RAILWAY
Plans and specifications have been com-
pleted for the erection of a unique in-
cline railway to the summit of Del Rey
Hill. The road will be a masterpiece
of modern engineering, and will be built
under the personal supervision of Mr. A.
W. Hager, a well-known architect. The
system will have a double track, and will
open to the public the most picturesque
scenic residence property on the con-
tinent. Building operations will commence
at once.

If Del Rey's Future is Dazzling,
It's Present Is NOT Without Its Sparkle
Playa Del Rey is not only the nearest and most attractive
beach—but is also the MOST HIGHLY IMPROVED RE-
SORT. Hundreds of thousands of dollars have been un-
stintingly expended to enhance the beauty of the scenic at-
tractions created here by Dame Nature. If you want
ESTABLISHED IMPROVEMENTS—come to Del Rey.
If you want "future improvements"—go elsewhere.
